CERTIFICATES.

☞ *MORE CONCLUSIVE PROOFS* of the extraordinary efficacy of *Dr. WM. EVANS' CAMOMILE and APERIENT ANTI-BILIOUS PILLS*, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery, or Bloody Flux. Symptoms, unusual flatulency in the bowels, severe griping, frequent inclination to go to stool, tenesmus, loss of appetite, nausea, vomiting, frequency of pulse, and a frequent discharge of a peculiar, fœtid matter, mixed with blood, great debility, sense of burning heat, with an intolerable bearing down of the parts. Mr. Cameron is enjoying perfect health, and returned his sincere thanks for the extraordinary benefit he had received.

☞ ASTHMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, afflicted with the above distressing malady. Symptoms: Great langour, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, costiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by *Dr. Wm. Evans' Medicine* in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

☞ LIVER COMPLAINT, TEN YEARS' STANDING.—*Mrs. Hannah Browne*, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with *Liver Complaint*, restored to health through the treatment of *Dr. Wm Evans*. Symptoms: Habitual constipation of the bowels, total loss of appetite, excruciating pain of the epigastric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr. Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt. Joseph Johnson, of Long Island, was severely afflicted for ten years with Tic Doloreux, violent pain in her head, and vomiting, with a burning heat in the stomach, and unable to leave her room. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chatham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's store, 289 Grand st. N. Y.

☞ PARALYTIC RHEUMATISM.—A perfect cure effected by the treatment of *Dr. W. E.* Mrs. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three years and nine months, during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all time, from the external heat, an obvious thickening of the fascia and ligaments, with a complete loss of muscular power.—For the benefit of those afflicted in a similar manner, Mr. Gibson conceives it meet to say that the pains have entirely ceased, and that his joints have completely recovered their natural tone, and he feels able to resume his ordinary business.

☞ Mrs. Anne F. Kenny, No. 115 Lewis street, between Stanton and Houston sts., afflicted for ten years with the following distressing symptoms: Acid eructations, daily spasmodic pains in the head, loss of appetite, constipation of the bowels, giddiness and dimness of sight, could not lie on her right side, disturbed rest, utter inability of engaging in any thing that demanded vigour or courage, sometimes a visionary idea of an aggravation of her disease, a whimsical aversion to particular persons and places, groundless apprehensions of personal danger and poverty, an irksomeness and weariness of life, discontented, disquietude on every slight occasion, she conceived she could neither die nor live; she wept, lamented, desponded, and thought she led a most miserable life, never was any one so bad, with frequent mental hallucinations.

Mr. Kenny had the advice of several eminent physicians, and had recourse to numerous medicines, but could not obtain even temporary alleviation of her distressing state, till her husband persuaded her to make trial of my mode of treatment.

She is now quite relieved, and finds herself not only capable of attending to her domestic affairs, but avows that she enjoys as good health at present as she did at any period of her existence.

J. Kenny, husband of the aforesaid Anne Kenny.

☞ A Letter from Mr. Sheldon P. Gilbert, to Dr. Wm. Evans, proprietor of the celebrated Camomile Pills:

Dear Sir—Had the immortal Cowper known the medical qualities of the Camomile Plant, he as well as thousands since (besides myself) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, thro' the natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Camomile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.

The above lines were prompted from the effect I have experienced from Dr. Wm. Evans' Camomile Pills.

Yours, with esteem,

Sheldon P. Gilbert.

Durham, Green Co., N. Y.

☞ *Another recent test of the unrivalled virtue of Dr. Wm. Evans' Medicines.—DYSPEPSIA. TEN YEARS' STANDING.*—Mr. J. McKenzie, 176 Stanton street, was afflicted with the above complaint for 10 years, which incapacitated him at intervals, for the period of six years, in attending to his business, restored to perfect health under the salutary treatment of Dr. Wm. Evans.

The symptoms were—A sense of distension and oppression after eating, distressing pain in the pit of the stomach, nausea, impaired appetite, giddiness, palpitation of the heart, great debility and emaciation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extreme degree of langour and faintness; any endeavour to pursue his business causing immediate exhaustion and weariness.

Mr. McKenzie is daily attending his business, and none of the above symptoms have occurred since he used the medicine. He is now a strong and healthy man. He resorted to myriads of remedies, but they were all ineffectual. He is willing to give any information to the afflicted respecting the inestimable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

☞ *An Extraordinary and Remarkable Cure.—Mrs. Mary Dillon*, Williamsburgh, corner of Fourth and North streets, completely restored to health by the treatment of Dr W. Evans, 100 Chatham st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twitching of the tendons, with a general spasmodic affection of the muscles, difficulty of breathing, giddiness, langour, lassitude, great depression of spirits, with a fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciation, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily awaited by her friends, which may be authenticated by the physicians who were in attendance. She has given her cheerful permission to publish the above facts, and will also gladly give any information respecting the benefit she has received, to any inquiring mind.

MARY DILLON.

☞ DYSPEPSIA AND HYPOCHONDRIACISM.—*Interesting Case.*—Mr. William Salmon, Green street, above Third, Philadelphia, afflicted for several years with the following distressing symptoms. Sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrescent eructations, coldness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of pressure and weight at the stomach after eating, nightmare, great mental despondency, severe flying pains in the chest back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, languor and lassitude upon the least exercise.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health; however as his affliction had reduced him to a very deplorable condition, and having been recommended by a relative of his to make trial of Dr. Wm. Evans' medicine, he with difficulty repaired to the office and procured a package, to which, he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of health.

Persons desirous of further information, will be satisfied in every particular as to this astonishing cure, at Dr. Wm. Evans' Medical Office, 100 Chatham st. N. Y.

☞ *A severe case of Piles cured at 100 Chatham street.*—Mr Daniel Spanning, of Shrewsbury, Eden Town, New Jersey, was severely afflicted with *Piles for* more than 20 years. Had had recourse to medicines of almost every description, also the advice of several eminent physicians, but never found the slightest relief from any source whatsoever, until he called on *Dr. Evans*, of 100 Chatham street, N. Y. and procured some medicine from him, from which he found immediate relief, and subsequently a perfect cure.

☞ *An Extraordinary Cure* performed by Dr. Wm. Evans, of 100 Chatham st. N. Y.—Mr. W. W. W. of 160 Eldridge street, was labouring under a disease, which was by many physicians considered incurable, and could find no relief from any source whatever, until he made application to Dr. Evans, and placed himself under his successful course of treatment, from which he began to find immediate relief, and in a few weeks was perfectly cured.

☞ *REMARKABLE CASE OF ACUTE RHEUMATISM*, with an affection of the Lungs—cured under the treatment of Dr. Wm Evans, 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 13 Centre street, Newark, N. J. afflicted for four years with severe pains in all his joints, which were always increased on the slightest motion; the tongue preserved a steady whiteness; loss of appetite, dizziness in his head, the bowels commonly very costive, the urine high coloured, and often profuse sweating, unattended by relief. The above symptoms were also attended with considerable difficulty of breathing, with a sense of tightness across the chest, likewise a great want of due energy in the nervous system.

The above symptoms were entirely removed, and a perfect cure effected by Dr. Wm. Evans.

JOURNAL OF PROCEEDINGS
Of the House of Delegates of the State of Maryland,
DECEMBER SESSION, 1838.

TUESDAY, Jan. 29th, 1839.

The Speaker announced the following message as having been received from the Senate on yesterday, viz:

The bill for the relief of Philemon Chew, endorsed "will pass," and ordered to be engrossed, and,

The resolutions relating to the improvement of the harbour of Havre-de-Grace, endorsed, "assented to," and ordered to be engrossed.

Mr. Williams, of Harford, submitted the following order:

Ordered, That the clerk of this house cause the statistical exhibits, which were referred to yesterday, in the report made in relation to the abolishment of imprisonment for debt, to be printed, together with the said report, to the number of——copies.

Mr Watson moved to fill the blank in said order with six hundred and sixty-six copies.

Resolved in the affirmative.

The said order was then read the second time and adopted.

The clerk of the Senate returned the bill, for the relief of John T. Holtzman, also

The bill to authorise Charles B. Gwynn, of the city of Baltimore, to bring into this State a negro woman named Sally, a slave for life, also

And delivered a resolution granting the use of the Library to officers of the Army and Navy of the United States.

Mr. Stewart moved that the house suspend the rule, for the purpose of offering an order.

Resolved in the affirmative.

Mr. Stewart then submitted the following order.

Ordered, That it be noted on the journal that, on the ballot for the election of United States' Senator, held on Saturday, the 26th inst., Mr Stewart, of Montgomery, asked to be excused, and was excused, from voting, for the following reasons:

Because he considered the proceeding inexpedient, impolitic and unjust.

Inexpedient. Because suddenly brought upon the General Assembly without one hour's notice, interrupting public business, arresting and postponing an important debate, and uncalled for by any public necessity or to attain any public good.

Impolitic. Because inexpedient and unnecessary; denying, without notice, to those members who have sworn in, as attending members but who are accidentally or temporarily absent, an opportunity of voting, and to those gentlemen who are present and claiming seats, the right to participate in a question so important and dear to freemen, when a few days delay, without detriment to the public interest, might afford the opportunity and give the right to all who are entitled to participate in the election of a United States Senator.

Unjust. Because, being inexpedient, unnecessary and impolitic, suddenly forced upon this General Assembly, as it is, it not only denies to the qualified, sworn and attending members, who are accidentally and temporarily absent, an opportunity of voting, but infringes the liberties and franchises of the people of Kent, Frederick and Annapolis, by virtually depriving them of an equal participation in a most sacred and important right.

And, therefore, for the foregoing reasons, the election of a United States Senator at this time, and in the manner now proceeding, is protested against as an act inexpedient, impolitic and unjust; wrong in principle, dangerous in practice, and which inflicting injustice on a portion of the people of this State, deeply affects and concerns every freeman of Maryland.

Mr. Turner moved to lay said order on the table.

Determined in the negative.

Mr. Fitzhugh moved to amend said order by striking out the words "and was excused."

Mr. Handy moved to amend said amendment by inserting in lieu of the words to be stricken out, these words, and was excused from voting by the courtesy of this house and not,"

Resolved in the affirmative.

The question was then put, will the house adopt the amendment as amended, Resolved in the affirmative.

And Mr. Ridgely presented a memorial of the president and directors of the Franklin Bank of Baltimore, praying an extension of the time limited for the sale of the augmented stock of said bank.

Mr. Page chairman of the committee on ways and means, submitted the following report:

The committee of ways and means, to which was referred the communication received from the "Annapolis and Elk Ridge Rail Road Company," respectfully submit the following report.

The charter of the company authorised a subscription of $300,000 payable out of the fund to be raised by the sale of the stock to be created under the provisions of the act of December session 1835, chapter 325, entitled an act for the promotion of internal improvement. This subscription was made by the treasurer on the 15th day of March 1836. The commissioners appointed under the provisions of this act, sold three millions of dollars of the stock to the Baltimore and Ohio rail road company, and a like amount to the Chesapeake and Ohio canal company. The legislature confirmed the contracts at its last session, and declared that the sales realised under them, should enure to the benefit of all the companies enumerated in the act above referred to, including the Annapolis and Elk Ridge rail road company. Under these resolutions No. 26, the Annapolis and Elk Ridge rail road company would have been entitled to receive 1-25 part of the fund, or $240,000 if the whole six millions had been realized. The Baltimore and Ohio rail road company have not however been enabled to make sale of the stock contracted for by it, and it is believed by the committee, that so long as the state requires a premium of 20 per cent, nothing will be realized from that source. The Legislature at its last session, also passed another resolution No. 68, under which the Chesapeake and Ohio canal company were authorised to receive bonds or stock to the amount of $250,000 on condition however that the respective proportions of the other companies of any monies raised by the sale or hypothecation of the stock or bonds, should be paid into the Treasury, to meet the requisitions of the other companies. By these resolutions the Annapolis and Elk Ridge rail road company would be entitled to receive about $103,000, if all the stock had been sold or hypothecated. This company has accordingly received $60,000 from the Chesapeake and Ohio canal company, upon requisitions of the Treasurer; and a requisition for an additional sum of $15,000 was forwarded on Tuesday last. Apprehending some difficulty in the obtainment of this last sum from the Chesapeake and Ohio canal company, the president of the Annapolis and Elk Ridge rail road company proposed to the canal company the transfer of $15,000 of the State stock, in case of the inability of the last named company to pay the money, and was informed by the officers of that company, that it was unable to pay the money, or to transfer the stock, the whole amount being already pledged in this country, or in Europe. Under these circumstances the Annapolis and Elk Ridge rail road company, asks the Legislature to authorise the Commissioners of Loan to deliver to them a portion of the stock not exceeding $37,500, on the terms of the original law, with the understanding that the premium of twenty per centum shall be refunded; provided that the law should be modified according to the proposition contained in the memorial of the Baltimore and Ohio rail road, and other companies, lately submitted to the consideration of the Legislature.

The whole capital of the company subscribed is $352,000 of which the State as before mentioned holds $300,000. The city of Annapolis $10,000, and individual stockholders $42,000. The corporation of Annapolis has already anticipated its subscription by the payment of $7500 in cash, and the creation of a six per cent stock, to the amount of $2500, all the individual stockholders have paid $25 on each share, and many of them $30 per share and some $40 per share.

The annexed tables which were furnished by the company to the committee, will show that the company could with the means appropriated for its benefit, execute the work which it was chartered to make.

Amount of contracts for graduation of the Annapolis and Elk Ridge Rail Road,	$128,316 46
Amount of contracts for executing the masonry of the road,	33,041 50
	161,359 96
Deduct this sum to be paid by the Messrs. Ellicotts, under a contract with the company,	3,450 00
	157,909 96

Estimated cost of superstructure with a 43 lb. rail	140,000 00
Expense of Engineers department including surveys and superintendance of construction and purchase of instruments,	12,000 00
Condemnation of Lands,	16,000 00
Salaries of officers and expense of office.	1,000 00
For one turnout,	1,000 00
Contingencies of various kinds, such as crossings of country road, farms, bridges and roads, changes of roads, paved drains and ditches,	11,000 00
Total,	339,409 96
Amount of capital subscribed,	352,000 00
Leaving a surplus of	13,190 04

It is proper to state that it is believed the Engineer has estimated the cost of superstructure upon the most liberal scale, and it is hoped that the actual expence will fall short of the estimated cost, and enable the company to furnish out of its present capital a sufficient locomotive power.

The original estimate of the Engineer was, for graduation and masonry,	$233,666 18
For superstucture with a bar rail of 23 lbs. to the yard,	70,000 00
	303,666 18
For contingencies 10 pr. ct.	30 366 61
Total,	334,032 79
For an edge rail 30 lbs. the yard, graduation and masonry as above,	233,666 18
Superstructure,	96,409 00
	330,066 18
For contingences 10 per cent,	33,006 61
Total,	363,072 79
Estimated cost of graduation and masonary,	233,666 18
Contract price,	157,909 96
Showing a saving on this account of	75,756 22

Out of which the company will be able to place upon the road a rail of forty-three pounds of the lineal yard.

The work has proceeded so far as to have caused the following expenditures for graduation including estimates unpaid. 61,449 18

For masonry,	24 883 02
	86,332 20
Add 20 per cent retained as security for performance of contracts,	17,266 44
Total,	103 598 64
Amount of contracts now made for graduation and masonry	157,909 96
Amount of costs of work finished,	103,598 64
Amount of work to be done,	54,311 32

The above statements show the vigor with which the work has been prosecuted since its commencement in June last, and also the zeal of the stockholders. No effort, it is believed, has been omitted on the part of the directors to obtain the funds appropriated for the benefit of the company by the last legislature, and nothing but the failure of the Canal Company to pay the requisition above mentioned has placed this company in its present embarrassed condition.

The company merely proposes to substitute a portion of the fund, originally intended for the company, for that provided by the resolutions of the last legislature. The fund contemplated to be placed at its disposal by the resolutions of the last legislature are now unavailable without any default on the part of this company.

The committee recommend the adoption of the following resolution—

Resolved by the General Assembly of Maryland, That the commissioner of loans be, and he is hereby authorised and directed to deliver to the Annapolis and Elk Ridge Rail Road Company certificates of the stock or bonds of this State, issued and created under the provisions of the act December session, 1835, chapter 395, to the value at par of 30 000 dollars in full of the sixth and seventh instalments of five dollars each on three thousand shares of the capital stock subscribed for in behalf of this State.

All which is respectfully submitted.

H. PAGE, Chairman.

The house then resumed the consideration of the order of the day, being the report submitted by Mr. Handy chairman of the committee on elections and privileges, in relation to the memorials of Benjamin Kirby and Robert Welch of Ben.,

The house again resolved itself into a committee of the whole house, upon said reports and substitutes, and after some time spent in committee, the Speaker resumed the chair, and Mr Maulsby, the chairman, reported that the said committee had, in obedience to order, again had said reports and substitutes under consideration, and having made some progress therein, had directed him to ask leave to sit again, which leave was granted by the house.

The house then adjourned until to-morrow morning ten o'clock.

THE STEAM SHIP LIVERPOOL—Had not arrived at New York on Sunday, when the morning mail left that city. She was advertised to sail on the 10th January, and provided she left at that time, would now have been out 24 days. We are of the opinion that she has been detained by some cause. She made her trip out in 14 days and 10 hours.

The Great Western was advertised to leave Bristol on the 19th, and as we have no doubt she sailed on that day, we may look for her arrival by every mail—she being out 13 days.

NEW REMEDY FOR DEAFNESS.

In a communication in this week's Lancet, from Mr. Curtis, the Surgeon to the Royal Dispensary for Diseases of the Ear, who from his situation must have had great experience in this line of practice, an account is given of the employment of a new remedy for Diseases of the Ear, the value of which has been exemplified in several cases. After remarking on the prevalent mistake that these diseases are incurable, and that the consequent neglect of them, to which he attributes the greatest number of cases of deafness, he observes that one of the principal and most common causes of that malady is deficiency of the natural secretion, arising from a want of action in the ceruminous glands, on removal of which the deafness generally disappears. For the purpose of effecting this Mr. Curtis has lately employed a solution of kreosote, the application of which does not cause any pain or smarting sensation, the only sensible effect produced being a feeling of agreeable warmth. This preparation excites the action of the glands, and causes an abundant secretion of cerumen, thereby restoring hearing.

ON LOW SPIRITS.

Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are, flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

Causes. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principal objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti spasmodic) are an infallible remedy, and without dissents have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in many cases it greatly aggravates the symptoms.

A REAL BLESSING TO MOTHERS.

Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums; thereby preventing Convulsions, Fevers, &c.

THE BARON VON HUTCHELER HERB PILLS.

These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse of strength to the arterial system: the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body requires a healthful state.

These Pills, after many serious fail and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines, and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that old age when it arrives, will appear a blessing, and not (as too many who have neglected their constitutions, or had them injured by medicines administered by ignorance) a source of misery and abhorrence.

They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expel the bad, acrid or morbid matter, which renders the blood impure, out of the circulation, thro' the excretory ducts into the passage of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the Herb Pills, always remembering that while the evacuations from the bowels are kept up, the excretions from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the most acute or obstinate diseases; but in such cases the dose may be augmented, according to the inveteracy of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at all times.

In all cases of Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Fluor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Flatulency, Heartburn, General Debility, Bodily Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Faintings, Hysterics, Headache, Hiccup, Sea Sickness, Night-Mare, Gout, Rheumatism, Asthma, Tic Douloureux, Cramp, Spasmodic Affections, and those who are victims to that most excruciating disorder, *Gout*, will find relief from their sufferings, by a course of the Herb Pills.

Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dimness or Confusion of Sight, Noises in the inside, alternate Flushings of Heat and Chilliness, Tremors, Watchings, Agitation, Anxiety, Bad Dreams, Spasms, will in every case be relieved by an occasional dose of the Herb Pills.

One of the most dangerous epochs to females is at the change of life: and it is then they require a medicine which will so invigorate their circulations, and thus strengthen their constitutions as may enable them to withstand the shock. This medicine is the Baron Von Hutcheler Herb Pills.

Those who have the care and education of females, whether the studious or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination.

When the Nervous System has been too largely drawn upon or overstrained, nothing is better to correct and invigorate the drooping constitution than these Pills.

DIRECTIONS.

Baron Von Hutcheler Herb Pills are to be taken in the morning and night, when the Stomach is foul or the Bowels costive, sufficient to operate twice or three times. The dose may be from three to twelve, or more, night and morning.

She was attended by three of the most eminent physicians, but found only temporary relief, until she procured some of *Baron Von Hutcheler Herb Pills*, which effectually relieved her of all the above distressing symptoms, and says she is perfectly cured.

Dyspepsia, five years standing.

Mr John Sutherland, of 608 Water street, had been severely afflicted with dyspepsia for five years, with the following distressing symptoms: sickness at the stomach, headache, dizziness, faintness, palpitation of the heart, great distress at the pit of the stomach after eating, great fulness, acrid eructations, coldness and weakness of the extremities, emaciation, heartburn, disturbed rest, frightful dreams, flying pains in the chest, side, and back, costiveness, dislike for society or conversation, great lassitude upon the least exercise, and completely unable to attend to any business. Cure of Nervous and Bilious Affection.

TAKE NOTICE.—Mr. Elias Shafer, of the town of Westerlo, county of Albany, was for above 27 years troubled with a nervous and bilious affection, which for 7 years rendered him unable to attend to business, and during the last three years of his illness was confined to the house. His symptoms were dizziness, pain in the head and side, palpitation of the heart, want of appetite, &c. After expending during his confinement, nearly three hundred dollars, without obtaining any permanent relief, he by accident noticed an advertisement of Baron Von Hutcheler Herb Pills, and was consequently induced to make a trial of them. After using them about a fortnight, he was able to walk out; in four months he could attend to business, and considered his disease entirely removed. The above information was given to the subscriber by Mr Shafer himself; there can, therefore, be no deception.

BENJAMIN WATKINS, Adm'r.

January 31. 2

JOURNAL OF THE AMERICAN SILK SOCIETY AND RURAL ECONOMIST.

A Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion of this Convention that *Silk* may be grown in all the United States, not only for domestic purposes, but as a valuable article of *commercial export*—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution, J. S. Skinner, postmaster, of Baltimore, was invited to become the editor of the work, and has consented to do so—so far as may be consistent with the strict performance of his public duties.

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the *silk culture*, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, 'Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export.' The suitableness of our soil and climate to the growth and health of the worm, and the trees which supply its food; the capabilities, the habits, and the genius of our people for conducting the business through its whole process, and the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our unrestrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has imparted to us, as to our English ancestry, an omnivorous appetite for knowledge, and a capacity to learn in a few years what cannot be acquired in *ages*, where all is dull conformity and routine of thought and of action! Thus has it happened in manufactures as in other things: American ingenuity, unrestrained by prejudice or law, has triumphed over difficulties apparently insurmountable! How long, may it be asked, after our first cotton spinning was put in motion before Yankee 'Lowells' were sold at a profit *in China*? So will it be with *silk*. The only question is as to *how long it shall take us*? With a monthly journal to concentrate and diffuse every ray of floating light on the subject, it was the opinion of the Convention that we may realize and enjoy, in *our own day*, the boon which indolence and want of *concert* may procrastinate, but which nothing short of Turkish apathy can finally defeat.

Let all then who may feel any concern as cultivators, manufacturers, or venders of *silk*, or as patriots willing to offer suitable occupation and bread to the unemployed and the helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national independence.

Though Silk, and every thing connected with its production, and all *improvements* in machinery for its preparation and manufacture, will constitute the *chief design and aim* of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of *agriculture, horticulture*, and *rural* and *domestic economy*—Hence, the adjunctive title '*Rural Economist*'

The Journal of the American Silk Society will be published monthly, in pamphlet form, each number will contain thirty-two pages, printed on new type and handsome paper, with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

SUBSCRIPTION

TO THE

SIXTH VOLUME OF

THE CULTIVATOR,

CONDUCTED BY J. BUEL,
of Albany.

IN presenting our subscription for the sixth volume of the Cultivator, the Conductor avails himself of the opportunity of tendering his thanks to the gentlemen, whose voluntary exertions have given to this paper a circulation almost unprecedented in our country—and particularly to the numerous correspondents whose communications have enriched its columns. We respectfully invite the continued co-operation of both classes, as an efficient mode of promoting useful improvement, and advancing the prosperity of our country. The plan and price of the Cultivator will remain as they are; but as the publication can only be sustained by a large circulation and prompt payments, much will depend upon the voluntary aid which we expect, and upon the subscriptions being promptly paid in advance.

The *Cultivator* will continue to treat on the science of agriculture, to furnish instructions for the best models of practice in all the departments of husbandry, in horticulture, and other rural affairs, and to give useful lessons for the improvement of the young mind. The Conductor will endeavour to render it a *present help*, and a volume of *useful reference*, to all who have the ambition to distinguish themselves in rural labours and rural improvements—to help themselves and to benefit society.

To meet the public demands, we have published a new edition of our four first volumes, which may be had, stitched, at 50 cents per vol.

☞ All papers stopped at the end of the volume, in February, unless the subscription is renewed.

☞ Subscriptions to the above work received by

A. COWAN, Annapolis.

NOTICE IS HEREBY GIVEN,

THAT the subscriber hath obtained from the Orphans Court of St. Mary's county, in Maryland, letters of administration de bonis non on the personal estate of McKelvie Hammett, late of said county, deceased. All persons having claims against said deceased, are hereby warned to exhibit the same with the vouchers thereof on or before the 1st day of July next, they may otherwise by law be excluded from all benefit of the said estate. VALUABLE FARMS FOR SALE.

BY virtue of a Deed of Trust executed by Dr. James Tongue for the payment of his judgment creditors, as in it more set forth, dated the seventh day of December last, and since recorded in Anne-Arundel County Court, the subscribers will sell at Public Sale, on THURSDAY, the 21st day of February next, on the premises, at 12 o'clock M. that Farm called "Prospect Hill," whereon the said Tongue resides, composed of different tracts or parcels of Land, containing about

600 ACRES.

It will be sold entire, or divided, as the subscribers shall elect at the sale. If divided by the public road, the Dwelling Plantation will contain above three hundred acres, and the other above two hundred acres, and each will be supplied with Dwelling and Tobacco Houses, and all other suitable buildings, and an abundance of water, fuel and timber.

This land lies in Anne-Arundel, immediately on navigable water, between West River and Herring Bay, and adjoining the Farms of Gustavus Weems, Mrs. Waters, John C. Weems, &c. and is near the Steamboat Landing called The Cove, between which and Baltimore there is a regular intercourse by Steam and Sail Boats.

A valuable Wind Mill, a Warehouse on the shore for storage, a good supply of choice Fruit Trees, extensive Meadow now well set in Timothy, a convenient private Oyster Bed, &c. and the means of at all times obtaining an abundant supply of different kinds of Fish, &c. are among the many advantages this land possesses.

The soil is admirably adapted to the growth of Grain and Tobacco, and though now as fertile as most of that rich section of the State, it enjoys peculiar conveniences for improvement in the possession of a bed of what is esteemed "Jersey Marl," and in the facilities of obtaining shells for liming.

The health of this location, the character of the neighbourhood, and the great facilities of transporting its produce to market, should add much to the value of these farms.

At the same time and place will be offered for sale a tract or parcel of Land called "Starling's Neck," lying in Calvert county, containing about Thirty acres, without any improvement, lying mostly in Wood, which can be easily got to market.

Also, FIVE VALUABLE NEGRO MEN, late the property of said Tongue, named Jacob, Jim, Abraham, King, Anthony, and Cæsar.

The Terms of Sale are—One-third of the purchase money to be paid in Cash, and the residue in two equal annual instalments, to be secured by bonds with sureties to be approved of by the subscribers, and to bear interest from the day of sale; or in the election of the purchaser the whole or a larger proportion of the purchase money may be paid in cash. On payment of the whole the subscribers will execute conveyances as prescribed by said deed.

The creditors of Dr. James Tongue, who have judgments that were rendered before the date of this deed, are requested to exhibit to the subscribers the vouchers thereof, with a statement thereon of the amount now due.

The Baltimore American, Chronicle and Republican; the National Intelligencer, and the Marlboro' Gazette, will publish this advertisement until the day of sale and forward their accounts to one of the subscribers.

$20 REWARD.

ON the evening of the 8th inst. a person who called himself Atkinson, who said he lived in Frederick, Md hired of the subscriber, in the city of Annapolis, a Bay Mare, together with Saddle and Bridle, for the purpose of going to Baltimore on urgent business. It appears, from circumstances, that said Atkinson took a different route, and has made false representations of his business, and has assumed different names to various persons in Annapolis; believing that said Atkinson has swindled me out of the bay mare, I hereby offer a reward of Twenty Dollars for the apprehension of said Atkinson and the recovery of the mare, to be paid on the arrest of the swindler and the recovery of the mare.

The bay mare is a good sizeable creature, about nine years old, with a star in her forehead, and her right hind foot is white, with a little split in the hoof, and has a snag on the thick part of her right thigh.

Atkinson, is about fifty years of age, of fair complexion, full face, and large teeth, square shouldered, and about five feet high, and rather corpulent. He wore a black shaggy overcoat and was rather genteelly dressed, having a watch, and guard affixed to it, in his pocket. He had a pair of new saddle bags with him well filled when he rode off with the mare. He had money on the Tide Water Canal Bank. Atkinson has been traced as far as ex-Gov. Sprigg's, in Prince George's county.

Should the mare be recovered, or the swindler arrested, information may be given to THOMAS GARDINER, Annapolis, who will pay the reward, or WILLIAM THOMPSON, Police Magistrate, Washington City, who will communicate with the owner.

January 17, 1839. 3t.

P. S. The above named Atkinson sold a black mare in the City of Annapolis on the day he hired mine. T. G.

PROSPECTUS
OF THE
AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

IT is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a *few years*, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology: but these do not meet the *present* necessity. A periodical which is avowedly *phrenological*—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is *now* needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "*The American Phrenological Journal and Miscellany.*"

The *object* of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on *Education*, (physical, intellectual, and moral;) on the *Medical Treatment of the Insane*; on *Jurisprudence*; on *Theology*, and on *Mental and Moral Philosophy*. On all these subjects there is encouragement to hope for contributions from several able pens; while the *resources* of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be *decidedly evangelical*: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology*. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. *Such* correspondents we shall always welcome to our pages, and they will always be treated with kindness: as also will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt: and the ignorant pretender, who seeks to overthrow a science which he will not take the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts *which are supposed to militate against Phrenology*; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and of which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral development in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenological or anti phrenological writers, as to the degree in which the several organs are developed—we *must*, in every such case, see *the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are *not generally accessible to the American public*. Our FACTS we pledge ourselves shall be *bona-fide* such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for *accepted matter*, as liberal a compensation per *printed page*, as is usually afforded by the very first periodicals in our country; but the editor does not promise to *endorse* all which his correspondents may communicate; nor all which he may admit into the work. To error, if serious, and especially if it affect the interests of morality and religion, he claims the right of *correction*, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the *extent* to which the work is patronised. It is not with the desire or expectation of gain that it is offered to the community, but from moral considerations: from a desire to know and to promulgate *truth*. Hence should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

TERMS.

1. *The American Phrenological Journal and Miscellany* will be issued monthly, commencing on the 2d of October next.

2 Each number will contain *at least* 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day.

3. The work will be furnished to subscribers at $2 per annum for a single copy; $5 (current in Philadelphia or New York) for THREE copies, or $10 (current as above) for SEVEN copies sent out to one address. To *Clergymen* and *Theological Students*, single copies will be furnished at $1 50 per annum; and to companies of eight or more of such, it will be reduced to $1 25 per copy, if sent to one address, and the subscription forwarded to the publisher free of expense.

N B. As funds are already deposited for sustaining the work *one year*, subscribers will incur no risk of loss by paying in advance; and for the same reason, subscriptions will be *invariably* required IN ADVANCE.

Money sent by mail, if enclosed in the presence of the post master, will be at the risk of the publisher; but *postage must, in every case, be paid*.

Subscriptions, and letters of business, may be addressed to the publisher, ADAM WALDIE, 46 Carpenter-street, Philadelphia, and communications for the work to the EDITOR of the Am. Phren. Journal, care of A. WALDIE.

To editors who will give this Prospectus one or two insertions, and forward a paper containing it to the publisher, the work will be sent for one year.

☞ Postmasters throughout the country will please to act as agents for this Journal.

A BY-LAW

Making further provision for the payment of the subscription of this City to the Capital Stock of the Annapolis and Elk-Ridge Rail Road Company.

[Passed October 1st, 1838.]

SECTION 1. Be it established and ordained by the Mayor, Recorder, Aldermen, and Common Council of the city of Annapolis, That the Mayor be, and he is hereby authorised and required, to issue to the Annapolis and Elk Ridge Rail Road Company, Certificates of Stock, to be signed by him, and countersigned by the Clerk, with the Seal of the Corporation thereto attached, to an amount not exceeding two thousand five hundred dollars, in such sums as the said Annapolis and Elk-Ridge Rail Road Company may direct, the principal amount thereof to be paid at the end of ten years from the time the same may be issued, with interest at the rate of six per cent per annum, payable half yearly on the first days of January and July of each year.

2. And be it further established and ordained by the authority aforesaid, That said Certificates shall, upon their face, be receivable in payment of taxes or other debts due this Corporation, and that the holders thereof shall have the privilege of setting the same off against such taxes, or other debts, provided, that the amount of such taxes, or other debts so set off, be credited on said Certificates by endorsement thereon, signed by the holder.

5. And be it established and ordained by the authority aforesaid, That so much of the by-law as authorises the issuing of stock to the amount of eight thousand five hundred dollars, passed the 10th of September 1838, and the same is hereby repealed.

A NEW AND CHEAP PERIODICAL

Attention is requested from our readers to the following prospectus of a new, and even a cheaper book periodical, which will be issued from this office in the first week of next January. It will not be in so convenient a form for binding as the present, with which it will in no way interfere, but it will make *books cheap beyond all precedent*. It will contain the works of the day, which are much sought after, but are *comparatively* dear, and which cannot penetrate the interior in any mode half so rapidly as by mail, in which *volumes* of books are prohibited. A fifty cent American reprint will be furnished entire for from *four to six cents*; a Marryat novel for twelve cents, and others in proportion.

As but very few copies will be printed but what are actually subscribed for, those who wish the Omnibus, must make their remittances at once.

Books at Newspaper Postage.

WALDIE'S LITERARY OMNIBUS.
NOVEL AND IMPORTANT LITERARY ENTERPRISE!!

NOVELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY

IT was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the secluded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than *four cents a week*, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, and a *summary of the news and events of the day*. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves.

The Select Circulating Library, now as ever so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also *filled with books* of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as usually *should* fill a weekly newspaper. By this method we hope to accomplish a great good; to enliven and enlighten the family circle, and to give to it at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no farther go." *No book which appears in Waldie's Quarto Library will be published in the Omnibus*, which will be an *entirely distinct* periodical.

TERMS

WALDIE'S LITERARY OMNIBUS will be issued every Friday morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain,

1st. Books, the newest and the best that can be procured, equal every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., *and only chargeable with newspaper postage*.

2d Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the *principal* events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded *to one address*. To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance

As the arrangements for the prosecution of this great literary undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Ree's Cyclopedia, for the small sum mentioned above.

Address, post paid,

ADAM WALDIE,
46 Carpenter St. Philadelphia.

☞ Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

NOTICE IS HEREBY GIVEN,

THAT the subscriber has obtained from the Orphans Court of Anne-Arundel county, short letters testamentary on the personal estate of Henry Gable, late of said county, deceased. SUPPLEMENT TO THE GLOBE.
PROSPECTUS FOR THE
CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The *Congressional Globe* is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The *Appendix* contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, $1.

One copy of the Appendix, $1.

Six copies of either of the above works will be sent for $5, twelve copies for $10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, *postage paid*, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

☞ *No attention will be paid to any order, unless the money accompany it*, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

CERTIFICATES.

☞ *MORE CONCLUSIVE PROOFS* of the extraordinary efficacy of *Dr WM. EVANS'* celebrated *CAMOMILE* and *APERIENT ANTI-BILIOUS PILLS*, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery, or Bloody Flux. Symptoms, unusual flatulency in the bowels, severe griping, frequent inclination to go to stool, tenesmus, *loss of appetite*, nausea, vomiting, frequency of pulse, and a frequent discharge of a peculiarly fetid matter, mixed with blood, great debility, sense of burning heat, with an *intolerable* bearing down of the parts. Mr. Cameron is enjoying perfect health, and returned his sincere thanks for the extraordinary benefit he had received.

☞ ASTHMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, afflicted with the above distressing malady. *Symptoms*: great languor, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, costiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of *every person* interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by *Dr. Wm. Evans' Medicine* in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

☞ LIVER COMPLAINT, TEN YEARS' STANDING.—*Mrs. Hannah Browne*, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of *Dr. Wm. Evans*. Symptoms: Habitual constipation of the bowels, total loss of appetite, excruciating pain of the epigastric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great *derangement* of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but *little relief from* their medicine, till Mr. Browne procured some of Dr. Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing *symptoms*, with others, which it is not essential to intimate.

A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt. Joseph Johnson, of Lynn, Mass. was severely afflicted for ten years with Tic Douloreux, violent pain in her head, and vomiting, with a burning heat in the stomach, and unable to leave her room. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chatham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's Store, 389 Grand st. N. Y.

☞ PARALYTIC RHEUMATISM.—A perfect cure effected by the treatment of *Dr. W. Evans*. Mr. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three years and nine months; *during* which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all times from the external heat, an obvious thickening of the fascia and ligaments, with a complete loss of muscular power.—For the benefit of those afflicted in a similar manner, Mr Gibson conceives it meet to say that the pains have entirely ceased, and that his joints *have* completely recovered their natural tone, and he feels able to resume his ordinary business.

☞ Mrs. Anne F. Kenny, No. 115 Lewis street, between Stanton and Houston sts., afflicted for ten years with the following distressing symptoms: Acid eructation, daily spasmodic pains in the head, loss of appetite, palpitation of her heart, giddiness and dimness of sight, could not lie on her right side, disturbed rest, utter inability of engaging in any thing that demanded vigour or courage, sometimes a visionary idea of an aggravation of her disease, a whimsical aversion to particular persons and places, groundless apprehensions of personal danger and poverty, an irksomeness and weariness of life, discontented, disquietude on every slight occasion, she conceived she could neither die nor live; she wept, lamented, desponded, and thought she led a most miserable life, never was any one so bad, with frequent mental hallucinations.

Mr. Kenny had the advice of several eminent physicians, and had recourse to numerous medicines, but could not obtain even temporary alleviation of her distressing state, till her husband persuaded her to make trial of *my* mode of treatment.

She is now quite relieved, and finds herself not only capable of attending to her domestic affairs, but avows that *she enjoys as* good health at present as she did at any period of her existence.

J. Kenny, husband of the aforesaid Anne Kenny.

☞ A Letter from Mr. Sheldon P. Gilbert, to Dr. Wm. Evans, proprietor of the celebrated Camomile Pills:

Dear Sir—Had the immortal Cowper known the medical qualities of the *Camomile* Plant, he as well as thousands since (besides myself) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, thro' the natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Camomile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.

The above lines were prompted from the effect I have experienced from Dr. Wm. Evans' Camomile Pills.

Yours, with esteem,
Sheldon P. Gilbert.

Durham, Green Co., N. Y.

☞ *Another recent test of the unrivalled virtue of Dr. Wm Evans' Medicines.—DYSPEPSIA, TEN YEARS' STANDING.*—Mr. J. McKenzie, 176 Stanton street, was afflicted with the above complaint for 10 years, which incapacitated him at intervals, for the period of six years, in attending to his business, restored to perfect health under the salutary treatment of Dr. Wm Evans.

The symptoms were—A sense of distension and oppression after eating, distressing pain in the pit of the stomach, nausea, impaired appetite, giddiness, palpitation of the heart, great debility and emaciation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extreme degree of languor and faintness; any endeavour to pursue his business causing immediate exhaustion and weariness.

Mr. Mackenzie is daily attending his business, and *none of the above* symptoms have recurred since he used the medicine. He is now strong and healthy man. He resorted to myriads of remedies, but they were all ineffectual. He is willing to give any information to the afflicted respecting the inestimable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

☞ *An Extraordinary and Remarkable Cure.*—*Mrs Mary Dixon*, Williamsburgh, corner of Fourth and North streets, completely restored to health by the treatment of Dr W. Evans, 100 Chatham st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twitching of the tendons, with a general spasmodic affection of the muscles, difficulty of breathing, giddiness, langour, lassitude, great depression of spirits, with a fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciation, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily awaited by her friends which may be authenticated by the physicians who were in attendance. She has given her cheerful permission to publish the above facts, and will also gladly give any information respecting the benefit she has received, to any inquiring mind.

MARY DILLON.

☞ DYSPEPSIA AND HYPOCHONDRIACISM.—*Interesting Case.*—Mr William Salmon, Green street, above Third, Philadelphia, afflicted for several years with the following distressing symptoms: Sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrescent eructations, costiveness and weakness of the extremities, emaciation and general debility, disturbed rest a sense of pressure and weight at the stomach after eating, nightmare, great mental despondency, severe flying pains in the chest back and sides, costiveness, a distaste for society, or conversation, involuntary sighing and weeping, languor and lassitude upon the least exercise.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health; however as his affliction had reduced him to a very deplorable condition and having been recommended by a relative of his to make trial of Dr. Wm. Evans' medicine, he with difficulty repaired to the office and procured a package, to which, he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of health.

Persons desirous of further information, will be satisfied in every particular as to this astonishing cure, at Dr. Wm. Evans' Medical Office, 100 Chatham st. N. Y.

☞ *A severe case of Piles cured at 100 Chatham street.*—Mr Daniel Spanning, of Shrewsbury, Eden Town, New Jersey, was severely afflicted with Piles for more than 20 years. Had had recourse to medicines of almost every description, also the advice of several eminent physicians, but never found the slightest relief from any source whatsoever, until he called on Dr. Evans, of 100 Chatham street, N. Y. and procured some medicine from him, from which he found immediate relief, and subsequently a perfect cure.

☞ *An Extraordinary Cure* performed by Dr. Wm. Evans, of 100 Chatham st. N. Y.—Mr. W. W. W. of 160 Eldridge street, was labouring under a disease, which was by many physicians considered incurable, and could find no relief from any source whatever, until he made application to Dr. Evans, and placed himself under his successful course of treatment, from which he began to find immediate relief, and in a few weeks was perfectly cured.

☞ *REMARKABLE CASE OF ACUTE RHEUMATISM*, with an affection of the Lungs—cured under the treatment of Dr. Wm Evans, 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 13 Centre street, Newark, N. J. afflicted for four years with severe pains in all his joints, which were always increased on the slightest motion; the tongue preserved a steady whiteness; loss of appetite, dizziness in his head, the bowels commonly very costive, the urine high coloured, and often profuse sweating, unattended by relief. The above symptoms were also attended with considerable difficulty of breathing, with a sense of tightness across the chest, likewise a great want of due energy in the nervous system.

The above symptoms were entirely removed, and a perfect cure effected by Dr. Wm. Evans.

BENJ. S. JARVIS.

City of New York, ss.

Benjamin S. Jarvis being duly sworn, doth depose and say, that the facts stated in the above certificate, subscribed by him, are in all respects true.

PROSPECTUS

OF THE

AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

IT is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a *few years*, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology: but these do not meet the *present* necessity. A periodical which is avowedly *phrenological*—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is *now* needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "*The American Phrenological Journal and Miscellany.*"

The *object* of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on *Education*, (physical, intellectual, and moral;) on the *Medical Treatment of the Insane*; on *Jurisprudence*; on *Theology*, and on *Mental and Moral Philosophy*. On all these subjects there is encouragement to hope for contributions from several able pens; while the *resources* of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be *decidedly evangelical*: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology*. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. *Such* correspondents we shall always welcome to our pages, and they will always be treated with kindness: as also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt; and the ignorant pretender, who seeks to overthrow a science which he will not use the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts *which are supposed to militate against* Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and to which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral development in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenological or anti phrenological writers, as to the degree in which the several organs are developed—we *must*, in every such case, see *the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are *not generally accessible to the American public*. Our FACTS we pledge ourselves shall be *bona-fide* such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for *accepted matter*, as liberal a compensation per *printed page*, as is usually afforded by the very first periodicals in our country; but the editor does not promise to *endorse* all which his correspondents may communicate; nor all which he may admit into the work. To error, if serious, and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the view or expectation of gain that it is offered to the community, but from moral considerations: from a desire to know and to promulgate *truth*. Hence, should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

[Passed October 1st, 1838.]

SECTION 1. Be it established and ordained by the Mayor, Recorder, Aldermen, and Common Council of the city of Annapolis, That the Mayor be, and he is hereby authorised and required, to issue to the Annapolis and Elk Ridge Rail Road Company, Certificates of Stock, to be signed by him, and countersigned by the Clerk, with the Seal of the Corporation thereto attached, to an amount not exceeding two thousand five hundred dollars, in such sums as the said Annapolis and Elk-Ridge Rail Road Company may direct, the principal amount thereof to be paid at the end of ten years from the time the same may be issued, with interest at the rate of six per cent per annum, payable half yearly on the first days of January and July of each year.

2. And be it further established and ordained by the authority aforesaid, That said Certificates shall, upon their face, be receivable in payment of taxes or other debts due this Corporation, and that the holders thereof shall have the privilege of setting the same off against such taxes, or other debts, provided, that the amount of such taxes, or other debts so set off, be credited on said Certificates by endorsement thereon, signed by the holder.

And be it established and ordained by the *authority aforesaid*, That the stock thus authorised to be issued, may be transferred either by the holder in person, or by attorney, upon the surrender of the Certificate, and that when a new Certificate shall be issued in the name of the transferee, it shall only be for the balance thereof, after deducting the sums (if any) which may be endorsed as aforesaid.

5. And be it established and ordained by the authority aforesaid, That so much of this by-law as authorises the issuing of stock to the amount of eight thousand five hundred dollars, passed the 10th of September 1838, and the same is hereby repealed.

A NEW AND CHEAP PERIODICAL.

Attention is requested from our readers to the following prospectus of a new, and even a cheaper book periodical, which will be issued from this office in the first week of next January. It will not be in so convenient a form for binding as the present, with which it will in no way interfere, but it will make *books cheap beyond all precedent*. It will contain the works of the day, which are much sought after, but are *comparatively* dear, and which cannot penetrate the interior in any mode half so rapidly as by mail, in which *volumes* of books are prohibited. A fifty cent American reprint will be furnished entire for from *four to six cents*; a Marryat novel for twelve cents, and others in proportion.

As but very few copies will be printed but what are actually subscribed for, those who wish the Omnibus, must make their remittances at once.

Books at Newspaper Postage.

WALDIE'S LITERARY OMNIBUS.

NOVEL AND IMPORTANT LITERARY ENTERPRISE!!

NOVELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY

IT was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the secluded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than *four cents a week*, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, *and a summary of the news and events of the day*. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves.

The Select Circulating Library, now as ever so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also *filled with books* of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as usually *should* fill a weekly newspaper. By this method we hope to accomplish a great good; to enliven and enlighten the family circle, and to give to it, at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no farther go." *No book which appears in Waldie's Quarto Library will be published in the Omnibus*, which will be an *entirely distinct* periodical.

TERMS

WALDIE'S LITERARY OMNIBUS will be issued every Friday morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain,

1st. Books, the newest and the best that can be procured, equal every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., *and only chargeable with newspaper postage.*

2d Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded *to one address*. To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance

As the arrangements for the prosecution of this great literary undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Ree's Cyclopedia, for the small sum mentioned above.

Address, post paid,

ADAM WALDIE,
46 Carpenter St. Philadelphia.

☞ Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

NOTICE IS HEREBY GIVEN,

CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The *Congressional Globe* is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The *Appendix* contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, $1.

One copy of the Appendix, $1.

Six copies of either of the above works will be sent for $5, twelve copies for $10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, *postage paid*, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

☞ *No attention will be paid to any order, unless the money accompany it*, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

CERTIFICATES.

☞ *MORE CONCLUSIVE PROOFS* of the extraordinary efficacy of *Dr WM. EVANS'* celebrated *CAMOMILE* and *APERIENT ANTI-BILIOUS PILLS*, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery, or Bloody Flux. Symptoms, unusual flatulency in the bowels, severe griping, frequent inclination to go to stool, tenesmus, loss of appetite, nausea, vomiting, frequency of pulse, and a frequent discharge of a peculiarly fœtid matter, mixed with blood, great debility, sense of burning heat, with an intolerable bearing down of the parts. Mr. Cameron is enjoying perfect health, and returned his sincere thanks for the extraordinary benefit he had received.

☞ ASTHMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, afflicted with the above distressing malady. *Symptoms*: great languor, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, costiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by *Dr. Wm. Evans' Medicine* in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

☞ LIVER COMPLAINT, TEN YEARS' STANDING.—*Mrs. Hannah Browne*, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of *Dr. Wm. Evans*. Symptoms: Habitual constipation of the bowels, total loss of appetite, excruciating pain of the epigastric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr. Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

JOSEPH BROWNE.

City and County of New York, ss.

Joseph Browne, Williamsburgh Long Island, being duly sworn, did depose and say that the facts as set forth in the within statement, to which he has subscribed his name, are just and true.

A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt. Joseph Johnson, of Lynn, Mass. was severely afflicted for ten years with Tic Doloreux, violent pain in her head, and vomiting, with a burning heat in the stomach, and unable to leave her room. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using *Dr. Evans' medicine*, of 100 Chatham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's Store, 389 Grand st. N. Y.

☞ PARALYTIC RHEUMATISM.—A perfect cure effected by the treatment of *Dr. W. Evans*. Mr. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three years and nine months; during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all times from the external heat, an obvious thickening of the fascia and ligaments, with a complete loss of muscular power.—For the benefit of those afflicted in a similar manner, Mr Gibson conceives it meet to say that the pains have entirely ceased, and that his joints have completely recovered their natural tone, and he feels able to resume his ordinary business.

☞ Mrs. Anne F. Kenny, No. 115 Lewis street, between Stanton and Houston sts., afflicted for ten years with the following distressing symptoms: Acid eructation, daily hysterick pains in the head, loss of appetite, palpitation of her heart, giddiness and dimness of sight, could not lie on her right side, disturbed rest, utter inability of engaging in any thing that demanded vigour or courage, sometimes a visionary idea of an aggravation of her disease, a whimsical aversion to particular persons and places, groundless apprehensions of personal danger and poverty, an irksomeness and weariness of life, discontented, disquietude on every slight occasion, she conceived she could neither die nor live; she wept, lamented, desponded, and thought she led a most miserable life, never was any one so bad, with frequent mental hallucinations.

Mr. Kenny had the advice of several eminent physicians, and had recourse to numerous medicines, but could not obtain even temporary alleviation of her distressing state, till her husband persuaded her to make trial of my mode of treatment.

She is now quite relieved, and finds herself not only capable of attending to her domestic affairs, but avows that she enjoys as good health at present as she did at any period of her existence.

J. Kenny, husband of the aforesaid Anne Kenny.
Sworn before me, this 14th day of December, 1836.
Peter Pinckney, Com. of Deeds.

☞ A Letter from Mr. Sheldon P. Gilbert, to Dr. Wm. Evans, proprietor of the celebrated Camomile Pills:

Dear Sir—Had the immortal Cowper known the medical qualities of the Camomile Plant, he as well as thousands since (besides myself) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, thro' the natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Camomile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.

The above lines were prompted from the effect I have experienced from Dr. Wm. Evans' Camomile Pills.

Yours, with esteem,
Sheldon P. Gilbert.

Durham, Green Co., N. Y.

☞ *Another recent test of the unrivalled virtue of Dr. Wm Evans' Medicines.—DYSPEPSIA, TEN YEARS' STANDING.*—Mr. J. McKenzie, 176 Stanton street, was afflicted with the above complaint for 10 years, which incapacitated him at intervals, for the period of six years, in attending to his business, restored to perfect health under the salutary treatment of Dr. Wm Evans.

The symptoms were— A sense of distension and oppression after eating, distressing pain in the pit of the stomach, nausea, impaired appetite, giddiness, palpitation of the heart, great debility and emaciation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extreme degree of languor and faintness; any endeavour to pursue his business causing immediate exhaustion and weariness.

Mr. Mackenzie is daily attending his business, and none of the above symptoms have recurred since he used the medicine. He is now strong and healthy man. He resorted to myriads of remedies, but they were all ineffectual. He is willing to give any information to the afflicted respecting the inestimable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

☞ *An Extraordinary and Remarkable Cure.—Mrs Mary Dixon*, Williamsburgh, corner of Fourth and North streets, completely restored to health by the treatment of Dr W. Evans, 100 Chatham st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twitching of the tendons, with a general spasmodic affection of the muscles, difficulty of breathing, giddiness, langour, lassitude, great depression of spirits, with a fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciation, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily awaited by her friends which may be authenticated by the physicians who were in attendance. She has given her cheerful permission to publish the above facts, and will also gladly give any information respecting the benefit she has received, to any inquiring mind.

MARY DILLON.

☞ DYSPEPSIA AND HYPOCHONDRIACISM.—*Interesting Case.*—Mr William Salmon, Green street, above Third, Philadelphia, afflicted for several years with the following distressing symptoms. Sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrescent eructations, costiveness and weakness of the extremities, emaciation and general debility, disturbed rest a sense of pressure and weight at the stomach after eating, nightmare, great mental despondency, severe flying pains in the chest back and sides, costiveness, a distaste for society, or conversation, involuntary sighing and weeping, languor and lassitude upon the least exercise.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health; however as his affliction had reduced him to a very deplorable condition and having been recommended by a relative of his to make trial of Dr. Wm. Evans' medicine, he with difficulty repaired to the office and procured a package, to which, he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of health.

Persons desirous of further information, will be satisfied in every particular as to this astonishing cure, at Dr. Wm. Evans' Medical Office, 100 Chatham st. N. Y.

Had had recourse to medicines of almost every description, also the advice of several eminent physicians, but never found the slightest relief from any source whatsoever, until he called on Dr. Evans, of 100 Chatham street, N. ☞ *An Extraordinary Cure* performed by Dr. Wm. Evans, of 100 Chatham st. N. Y.—Mr. W. W. W. of 160 Eldridge street, was labouring under a disease, which was by many physicians considered incurable, and could find no relief from any source whatever, until he made application to Dr. Evans, and placed himself under his successful course of treatment, from which he began to find immediate relief, and in a few weeks was perfectly cured.

☞ *REMARKABLE CASE OF ACUTE RHEUMATISM*, with an affection of the Lungs—cured under the treatment of Dr. Wm Evans, 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 13 Centre street, Newark, N. J. afflicted for four years with severe pains in all his joints, which were always increased on the slightest motion; the tongue preserved a steady whiteness; loss of appetite, dizziness in his head, the bowels commonly very costive, the urine high coloured, and often profuse sweating, unattended by relief. The above symptoms were also attended with a considerable difficulty of breathing, with a sense of tightness across the chest, likewise a great want of due energy in the nervous system.

The above symptoms were entirely removed, and a perfect cure effected by Dr. Wm. Evans.

Ordered, That a committee be appointed to examine the Executive Chamber, and report to this house the condition of the same, and what expenditures are necessary for the repairs of the said Chamber.

Mr. Causin, from the committee on grievances and courts of justice, delivered the following report.

The committee on grievances and courts of justice, to whom was referred the memorial of the honourable Clement Dorsey, beg leave to report—

That the completion of the work contemplated by his memorial, a revision of the Laws of Maryland, has for years been a subject of deep interest to the State.

Frequent attempts have been made by previous legislatures to effect this object, by the employment of competent agents upon the most liberal terms.

These attempts have always hitherto failed, by the omission of the parties engaged to enter upon the prosecution of the duty assigned them, and the inconvenience then sought to be remedied, has increased in a rapid ratio with every successive legislature.

The maxim of the law, founded in evident necessity, that "ignorantia legis excusat neminem," imports the evident propriety of enabling the citizen, in the most easy mode, to acquire a knowledge of the laws, by which he is governed.

Nero wrote his edicts upon the pinnacle of a lofty column and punished infringement of laws, his subjects had no means of becoming acquainted with. This was a refinement of tyranny to which neither the history of the ancient or modern world has furnished a parallel and creates in every mind a loathing abhorrence of the monster who devised so injurious a scheme of punishment.

We imitate, though unconsciously, the tyranny we denounce in this instance, when we impose the necessity of obedience to laws, scattered through so many volumes, varied in so many shapes by supplementary enactment, as to present almost insuperable obstacles to the research of the professional inquirer, and certainly to close them against the unpractitioner and unlearned citizen.

That this evil should be removed, all will acknowledge. The means of correcting it, at the option of the legislature, your committee deem to be plan embodied in the annexed resolutions, the best calculated to serve this object.

The individual proposed to be employed, is one whose known industry of habit, and extensive and accurate legal acquirements render him pre-eminently qualified for the task assigned. And in the full confidence of securing to the State a work of eminent utility, your committee beg leave to offer the following resolutions.

Resolved by the General Assembly of Maryland, That the Treasurer of the Western Shore of Maryland be, and he is hereby authorised to subscribe for one thousand copies of the revised code of the Laws of the State, proposed to be published by the Hon. Clement Dorsey, in addition to the number already subscribed for at ten dollars per copy, to be paid for as the work shall be completed and delivered to the State Librarian, and not before—Provided that said work shall be approved of by a committee to be appointed by the House of Delegates, and provided also, that said work shall be published and printed in chronological order, with a copious index, including the public statutory Law of the State, with the public local law appended thereto, and arranged among the counties in alphabetical order.

Resolved, That the copies hereinbefore ordered to be subscribed for, shall not, nor any of them, be sold or exchanged within the State, for the space of two years from the time of the delivery of the first copy thereof to the Librarian under the first resolution.

ON LOW SPIRITS.

Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are, *flatulency* in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, *exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.*

Causes. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principal objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in many cases it greatly aggravates the symptoms.

A REAL BLESSING TO MOTHERS.

Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums; thereby preventing Convulsions, Fevers, &c.

THE BARON VON HUTCHELER HERB PILLS.

These Pills are composed of Herbs, which exert a specific action upon the heart, give an *impulse* or strength to the arterial system: the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthful state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, *that old age when it arrives, will appear a blessing, and not* (as too many who have neglected their constitutions, or had them injured by medicines administered by ignorance) *a source of misery and abhorrence.*

They are so compounded, that by strengthening and equalising the action of the heart, liver, and other viscera, they expel the bad, acrid or morbid matter, which renders the blood impure, out of the circulation, thro' the excretory ducts into the passage of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the **Herb Pills**, always remembering that while the evacuations from the bowels are kept up, the excretions from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the most acute or obstinate diseases; but in such cases the dose may be augmented, according to the inveteracy of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at all times

In all cases of Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Fluor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Flatulency, Heartburn, General Debility, Bodily Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Faintings, Hysterics, Headache, Hiccup, Sea Sickness, Night-Mare, Gout, Rheumatism, Asthma, Tic Douloureux, Cramp, Spasmodic Affections, and those who are victims to that most excruciating disorder, *Gout*, will find relief from their sufferings, by a course of the Herb Pills.

Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dimness or Confusion of Sight, Noise in the inside, alternate Flushings of Heat and Chillness, Tremors, Watchings, Agitation, Anxiety, Bad Dreams, Spasms, will in every case be relieved by an occasional dose of the Herb Pills.

One of the most dangerous epochs to females is at the change of life; and it is then they require a medi-

cine which will so invigorate their circulation, and thus strengthen their constitutions as may enable them to withstand the shock. This medicine is the Baron Von Hutcheler Herb Pills.

Those who have the care and education of females, whether the studious or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination.

When the Nervous System has been too largely drawn upon or overstrained, nothing is better to correct and invigorate the drooping constitution than these Pills.

DIRECTIONS.

Baron Von Hutcheler Herb Pills are to be taken in the morning and night, when the Stomach is foul or the Bowels costive, sufficient to operate twice or three times. The dose may be from three to twelve, or more, night and morning.

General Depot for the sale of the Baron Von Hutcheler Herb Pills, 100 Chatham st. New York.

The following are among many cures performed by the superior efficacy of Baron Von Hutcheler Herb Pills!

Liver Complaint, five years standing.

Mrs. Phebe Morris, of North Sixth street, Williamsburg, afflicted for the last five years with Liver Complaint, was completely restored to health by the use of *Baron Von Hutcheler Herb Pills.* Symptoms: habitual costiveness, total loss of appetite, constant pain in the right side, great depression of spirits; could not lie in bed only on the right side, disturbed sleep, dimness of sight, urine high coloured, pain under the right shoulder blade, langour, lassitude, with other symptoms indicating a diseased state of the Liver.

She was attended by three of the most eminent physicians, but found only temporary relief, until she procured some of *Baron Von Hutcheler Herb Pills*, which effectually relieved her of all the above distressing symptoms, and says she is perfectly cured.

Dyspepsia, five years standing.

Mr. John Sutherland, of 608 Water street, had been severely afflicted with dyspepsia for five years, with the following distressing symptoms: sickness at the stomach, headache, dizziness, faintness, palpitation of the heart, great distress at the pit of the stomach after eating, great fullness, acrid eructations, coldness and weakness of the extremities, emaciation, heartburn, disturbed rest, frightful dreams, flying pains in the chest, side, and back, costiveness, dislike for society or conversation, great lassitude upon the least exercise, and completely unable to attend to any business. Had applied to many eminent physicians, but could find no relief, and despaired of ever being cured. Was advised by a friend to make use of *Baron Von Hutcheler Herb Pill*, the first dose of which gave him great relief, and by persevering in taking the pills, according to the directions, for six months, was perfectly restored to health and the enjoyment of his family and friends.

Dyspepsia, eight years standing, cured by the use of the celebrated Baron Von Hutcheler Herb Pills.

Captain J. Davis, of the ship William, was labouring under *the following symptoms, viz: violent pain in the* stomach after eating, great pain in the head, vomiting up all his food, heartburn, dizziness, violent palpitation *of the heart, great nervous irritability, spasms, great* langour, costiveness, and so debilitated as to be unable to attend to any business; could find no relief until after he commenced using Baron Von Hutcheler Herb Pills, from which he found great relief in a few days, and in a few weeks was perfectly cured, and recommends every person *similarly afflicted, to immediately* commence using the Herb Pills.

Cure of Nervous and Bilious Affection.

TAKE NOTICE.—Mr. Elias Shafer, of the town of Westerlo, county of Albany, was for above 27 years troubled with a nervous and bilious affection, which for 7 years rendered him unable to attend to business, and during the last three years of his illness was confined to the house. His symptoms were dizziness, pain in the head and side, palpitation of the heart, want of appetite, &c. After expending during his confinement, nearly three hundred dollars, without obtaining any permanent relief, he by accident noticed an advertisement of Baron Von Hutcheler Herb Pills, and was consequently induced to make a trial of them. After using them about a fortnight, he was able to walk out; in four months he could attend to business, and considered his disease entirely removed. The above information was given to the subscriber by Mr Shafer himself, there can, therefore, be no deception

JOURNAL
OF THE
AMERICAN SILK SOCIETY
AND
RURAL ECONOMIST.

AT a Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion of this Convention that *Silk* may be grown in all the United States, not only for domestic purposes, but as a valuable article of *commercial export*—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution, J. S. Skinner, postmaster, of Baltimore, was invited to become the editor of the work, and has consented to do so—so far as may be consistent with the strict performance of his public duties.

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the *silk culture*, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, 'Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export.' The suitableness of our soil and climate to the growth and health of the worm, and the trees which supply its food; the capabilities, the habits, and the genius of our people for conducting the business through its whole process, and the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our unrestrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has imparted to us, as to our English ancestry, an omnivorous appetite for knowledge, and a capacity to learn in a few years what cannot be acquired in *ages*, where all is dull conformity and routine of thought and of action! Thus has it happened in manufactures as in other *things*; American *ingenuity*, *unrestrained* by prejudice or law, has triumphed over difficulties apparently insurmountable! How long, may it be asked, after our first cotton spindle was put in motion before Yankee 'Lowells' were sold at a profit *in China*? So will it be with *silk*. The only question is as to *how long it shall take us*? With a monthly journal to concentrate and diffuse every ray of floating light on the subject, it was the opinion of the Convention that we may realize and enjoy, in our *own day*, the boon which indolence and want of *concert* may procrastinate, but which nothing short of Turkish apathy can finally defeat.

Let all then who may feel any concern as cultivators, manufacturers, or venders of *silk*, or as patriots willing to offer suitable occupation and bread to the unemployed and the helpless; come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national independence.

Though Silk, and every thing connected with its *production*; and all improvements in machinery for its preparation and manufacture; will constitute the *chief design and aim* of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of *agriculture, horticulture; and rural* and *domestic economy* — Hence the adjunctive title '*Rural Economist.*'

The Journal of the American Silk Society will be published monthly, in pamphlet form, *each number will contain thirty-two pages*, printed on new type and handsome paper, with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

SUBSCRIPTION
TO THE
SIXTH VOLUME OF
THE CULTIVATOR,
CONDUCTED BY J. BUEL,
of Albany.

IN presenting our subscription for the sixth volume of the Cultivator, the Conductor avails himself of the opportunity of tendering his thanks to the gentlemen, whose voluntary exertions have given to this paper a circulation almost unprecedented in our country—and particularly to the numerous correspondents whose communications have enriched its columns. We respectfully invite the continued co-operation of both classes, as an efficient mode of promoting useful improvement, and advancing the prosperity of our country. The plan and price of the Cultivator will remain as they are; but as the publication can only be sustained by a large circulation and prompt payments, much will depend upon the voluntary aid which we expect, and upon the subscriptions being promptly paid in advance.

The *Cultivator* will continue to treat of the science of agriculture, to furnish instructions for the best models of practice in all the departments of husbandry, in horticulture, and other rural affairs, and to give useful lessons for the improvement of the young mind. The Conductor will endeavour to render it a *present help*, and a volume of *useful reference*, to all who have the ambition to distinguish themselves in rural labours and rural improvements—to help themselves *and to benefit society*

PROSPECTUS

OF THE

AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

IT is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which *even* candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. That, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do *occasionally* admit articles in favour of phrenology: but these do not meet the *present* necessity. A periodical which is avowedly *phrenological*—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is *now* needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "*The American Phrenological Journal and Miscellany*."

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on *Education*, (physical, intellectual, and moral;) on the *Medical Treatment of the Insane*; on *Jurisprudence*; on *Theology*, and on *Mental and Moral Philosophy*. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be *decidedly evangelical:* for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology*. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. *Such* correspondents we shall always welcome to our pages, and they will always be treated with kindness; as, also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt; and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral developement in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenological or anti-phrenological writers, as to the degree in which the several organs are developed—we *must*, in every such case, see *the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our FACTS we pledge ourselves shall be *bona-fide* such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for *accepted matter*, as liberal a compensation per *printed page*, as is usually afforded by the very first periodicals in our country; but the editor does not promise to *endorse* all which his correspondents may communicate; nor all which he may admit into the work. To error, if serious, and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the desire or expectation of gain that it is offered to the community, but from moral considerations: from a desire to know and to promulgate *truth*. Hence, should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

TERMS.

1. *The American Phrenological Journal and Miscellany* will be issued monthly, commencing on the 2d of October next.

2. Each number will contain *at least* 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day.

3. The work will be furnished to subscribers at $2 *per annum for a single copy*; $5 (current in Philadelphia or New York) for THREE copies, or $10 (current as above) for SEVEN copies sent to one address. To *Clergymen* and *Theological Students*, single copies will be furnished at $1 50 per annum; and to companies of eight or more of such, it will be reduced to $1 25 per copy, if sent to one address, and the subscription forwarded to the publisher free of expense.

N. B. As funds are already deposited for *sustaining the work one year*, subscribers will incur no risk of loss by paying in advance; and for the same reason, subscriptions will be *invariably* required IN ADVANCE.

Money sent by mail, if enclosed in the presence of the post-master, will be at the risk of the publisher; but *postage must, in every case, be paid.*

Subscriptions, and letters of business, may be addressed to the publisher, ADAM WALDIE, 46 Carpenter-street, Philadelphia, and *communications for the work to the* EDITOR of the Am. Phren. Jour., care of A. WALDIE.

To editors who will give this Prospectus one or two insertions, and forward a paper containing it to the publisher, the work will be sent for one year.

A NEW AND CHEAP PERIODICAL

Attention is requested from our readers to the following prospectus of a new, and even a cheaper book periodical, which will be issued from this office in the first week of next January. It will not be in so convenient a form for binding as the present, with which it will in no way interfere, but it will make *books cheap beyond all precedent*. It will contain the works of the day, which are much sought after, but are *comparatively* dear, and which cannot penetrate the interior in any mode half so rapidly as by mail, in which *volumes* of books are prohibited. A fifty cent American reprint will be furnished entire for from *four* to *six cents*; a Marryat novel for twelve cents, and others in proportion.

As but very few copies will be printed but what are actually subscribed for, those who wish the Omnibus, must make their remittances at once.

WALDIE'S LITERARY OMNIBUS.

NOVEL AND IMPORTANT LITERARY ENTERPRISE!!

NOVELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY

IT was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the secluded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than *four cents a week*, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, and a summary of the news and events of the day. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite the mental food which it craves.

The Select Circulating Library, now as ever so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, *in the first week of January 1839*, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also *filled with books* of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as usually *should* fill a weekly newspaper. By this method we hope to accomplish a great good; to enliven and enlighten the family circle, and to give to it, at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no farther go." *No book which appears in Waldie's Quarto Library will be published in the Omnibus*, which will be an *entirely distinct* periodical.

TERMS

WALDIE'S LITERARY OMNIBUS will be issued every Friday morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain,

1st. Books, the newest and the best that can be procured, equal every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., *and only chargeable with newspaper postage.*

2d. Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d. The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded *to one address*. To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance.

As the arrangements for the prosecution of this great liberary undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Ree's Cyclopedia, for the small sum mentioned above.

Address, post paid,

ADAM WALDIE,
46 Carpenter St. Philadelphia.

☞ Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

SUPPLEMENT TO THE GLOBE.

PROSPECTUS FOR THE

CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it *requires, comparatively*, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The *Congressional Globe* is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The *Appendix* contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, $1.

One copy of the Appendix, $1.

Six copies of either of the above works will be sent for $5, twelve copies for $10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, *postage paid*, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

☞ *No attention will be paid to any order, unless the money accompany it*, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

PROSPECTUS

OF THE

AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

IT is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, most astonishingly *multiplied*, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, answer the enquiries which even candid persons are disposed to make concerning it And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles *in favour of phrenology*: but these do not meet the *present* necessity. A periodical which is avowedly *phrenological*—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with these facts, is *now* needed; and a strong feeling of the necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "*The American Phrenological Journal and Miscellany*."

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on *Education*, (physical, intellectual, and moral;) on the *Medical Treatment of the Insane*; on *Jurisprudence*; on *Theology*, and on *Mental and Moral Philosophy*. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be *decidedly evangelical*: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology*. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavilers, but of the truly candid, and the conscientiously fearful. *Such* correspondents we shall always welcome to our pages, and they will always be treated with sincerity; as also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt: and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts *which are supposed to militate against* Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness, or which all the facts in the case are furnished to us. But as we must form our own judgment of the cerebral development in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non phrenological or anti-phrenological writers, as to the degree in which the several organs are developed—we *must*, in every such case, *see the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal: as also, Reviews of Phrenological and Anti Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our FACTS we pledge ourselves shall be *bona-fide* such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for *accepted matter*, as liberal a compensation per *printed page*, as is usually afforded by the very first periodicals in our country; but the editor does not promise to *endorse* all which his correspondents may communicate; nor all which he may admit into the work. To error, if serious, and especially if it affect the interests of *morality and religion*, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the desire or expectation of gain that it is offered to the community, but from moral considerations: from a desire to know and to promulgate *truth*. Hence should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

TERMS.

1. *The American Phrenological Journal and Miscellany* will be issued monthly, commencing on the 2d of October next.

2. Each number will contain *at least* 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day.

3. The work will be furnished to subscribers at $2 per annum for a single copy; $5 (current in Philadelphia or New York) for THREE copies, or $10 (current as above) for seven copies sent to one address. To *Clergymen* and *Theological Students*, single copies will be furnished at $1 50 per annum; and to companies of eight or more of such, it will be reduced to $1 25 per copy, if sent to one address, and the subscription forwarded to the publisher free of expense.

N. B. As funds are already deposited for sustaining the work *one year*, subscribers will incur no risk of loss by paying in advance; and for the same reason, subscriptions will be *invariably* required IN ADVANCE.

Money sent by mail, if enclosed in the presence of the post master, will be at the risk of the publisher; but *postage must, in every case, be paid*.

Subscriptions, and letters of business, may be addressed to the publisher, ANAN WARNE, 40 Carpenter-street, Philadelphia, and communications for the work to the Editor of the Am. Phren. Jour., care of A. Warne.

To editors who will give this Prospectus one or two insertions, and forward a paper containing it to the publisher, the work will be sent for one year.

☞ Postmasters throughout the country will please to act as agents for this Journal.

A NEW AND CHEAP PERIODICAL

Attention is requested from our readers to the following prospectus of a new, and even a cheaper book periodical, which will be issued from this office in the first week of next January. It will not be in so convenient a form for binding as the present, with which it will in no way interfere, but it will make *books cheap beyond all precedent*. It will contain the works of the day, which are much sought after, but are *comparatively* dear, and which cannot penetrate the interior in any mode half so rapidly as by mail, in which *volumes* of books are prohibited. A fifty cent American reprint will be furnished entire for from *four* to *six cents*; a Marryat novel for twelve cents, and others in proportion.

As but very few copies will be printed but what are actually subscribed for, those who wish the Omnibus, must make their remittances at once.

Books at Newspaper Postage.

WALDIE'S LITERARY OMNIBUS.

NOVEL AND IMPORTANT LITERARY ENTERPRISE!!

NOVELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY

IT was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the secluded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the *same period for less than four cents a week*, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, and a summary of the news and events of the day. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves.

The Select Circulating Library, now as ever so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same But we shall, in the first week of January 1839, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also *filled with books* of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as *usually should* fill a weekly newspaper. By this method we hope to accomplish a great good; to enliven and enlighten the family circle, and to give to it, at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no farther go." *No book which appears in Waldie's Quarto Library will be published in the Omnibus*, which will be an *entirely distinct* periodical.

TERMS

WALDIE'S LITERARY OMNIBUS will be issued every Friday morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain,

1st. Books, the newest and the best that can be procured, equal every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., *and only chargeable with newspaper postage*.

2d. Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d. The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded *to one address*. To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance.

As the arrangements for the prosecution of this great liberary undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Ree's Cyclopedia, for the small sum mentioned above.

Address, post paid,

ADAM WALDIE,
46 Carpenter St. Philadelphia.

☞ Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

SUPPLEMENT TO THE GLOBE.

PROSPECTUS FOR THE

CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The *Congressional Globe* is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The *Appendix* contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, $1.

One copy of the Appendix, $1.

Six copies of either of the above works will be sent for $5, twelve copies for $10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, *postage paid*, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

☞ *No attention will be paid to any order, unless the money accompany it*, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

CERTIFICATES.

☞ *MORE CONCLUSIVE PROOFS* of the extraordinary efficacy of *Dr. WM. EVANS'* celebrated *CAMOMILE* and *APERIENT ANTI-BILIOUS PILLS*, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery, or Bloody Flux. Symptoms, *unusual* flatulency in the bowels severe griping, frequent inclination to go to stool tenesmus, loss of appetite, nausea, vomiting, frequency of pulse, and *frequent* discharge of a peculiarly fetid matter, mixed with blood, great debility, sense of burning heat, with an intolerable bearing down of the parts. Mr. Cameron *in enjoying* perfect health, and returned his sincere thanks for the extraordinary benefit he had received.

☞ ASTHMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, afflicted with the above distressing malady. Symptoms: Great languor, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, costiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and dire despair set on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by *Dr. Wm. Evans' Medicine* in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

☞ LIVER COMPLAINT, TEN YEARS' STANDING.—*Mrs. Hannah Browne*, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of *Dr. Wm. Evans.* Symptoms: Habitual constipation of the bowels, total loss of appetite, excruciating pain of the epigastric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till *Mr. Browne procured some of Dr. Wm Evans' invaluable preparations*, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

JOSEPH BROWNE.

City and County of New York, ss.

Joseph Browne, Williamsburgh, Long Island, being duly sworn, did depose and say that the facts as set forth in the within statement, to which he has subscribed his name, are just and true.

A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt. Joseph Johnson, of Lynn, Mass. was severely afflicted for ten years with Tic Doloreux, (*Most pain in her head, and vomiting, with a burning heat in the stomach*) and unable to leave her room. She could find no relief from the advice of several physicians, nor from *medicines* of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chatham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's Store, 369 Grand st. N. Y.

☞ PARALYTIC RHEUMATISM.—A perfect cure effected by the treatment of *Dr. W. Evans.* Mr. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three years and nine months, during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night, and for the most part all times from the extremities, an obvious thickening of the fascia and ligaments, with a complete loss of muscular power.—I for the benefit of those afflicted in a similar manner, Mr Gibson conceives it meet to say that the pains have entirely ceased, that his joints have completely recovered their natural tone, and he feels able to resume his ordinary business.

☞ Mrs. Anne E. Kenny, No. 115 Lewis street, between Stanton and Houston st. afflicted for two years with the following distressing symptoms: Acid eructations (sour) spasmodic pains in the head, loss of appetite, palpitation of her heart, giddiness and dimness of sight, could not lie on her right side, disturbed rest, utter inability of engaging in any thing that demanded vigour or courage, sometimes a visionary idea of an aggravation of her disease, a whimsical aversion to particular persons and places, groundless apprehensions of personal danger and poverty, an irksomeness and weariness of life, discontented, disquietude on every slight occasion, she conceived she could neither die nor live: she wept, lamented, desponded, and thought she led a most miserable life, never was any one so bad, with frequent mental hallucinations.

Mr. Kenny had the advice of several eminent physicians, and had recourse to numerous medicines, but could not obtain even temporary alleviation of her distressing state, till her husband persuaded her to make trial of my mode of treatment.

She is now quite relieved, and finds herself not only capable of attending to her domestic affairs, but avows that she enjoys as good health at present as she did at any period of her existence.

J. Kenny, husband of the aforesaid Anne Kenny.
Sworn before me, this 14th day of December, 1836.
Peter Pinckney, Com. of Deeds.

☞ A Letter from Mr. Sheldon P. Gilbert, to Dr. Wm. Evans, proprietor of the celebrated Camomile Pills:

Dear Sir—Had the immortal Cowper known the medical qualities of the Camomile Plant, he as well as thousands since (besides myself,) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, thro' the natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Camomile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.

The above lines were prompted from the effect I have experienced from Dr. Wm. Evans' Camomile Pills.

Yours, with esteem,
Sheldon P. Gilbert.

Durham, Green Co., N. Y.

☞ *Another recent test of the unrivalled virtue of Dr. Wm. Evans' Medicines.—DYSPEPSIA, TEN YEARS' STANDING.*—Mr. J. McKenzie, 176 Stanton street, was afflicted with the above complaint for 10 years, which incapacitated him at intervals, for the period of six years, in attending to his business, restored to perfect health under the salutary treatment of Dr. Wm Evans.

The symptoms were—A sense of distension and oppression after eating, distressing pain in the pit of the stomach, nausea, impaired appetite, giddiness, palpitation of the heart, great debility and emaciation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extreme degree of langour and faintness; any endeavour to pursue his business causing immediate exhaustion and weariness

Mr. McKenzie is daily attending his business, and none of the above symptoms have recurred since he used the *medicine*. He is now a strong and healthy man. He resorted to myriads of remedies, but they were all ineffectual. He is willing to give any information to the afflicted respecting the inestimable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

☞ *An Extraordinary and Remarkable Cure.—Mrs Mary Dillon*, Williamsburgh, corner of Fourth and North streets, completely restored to health by the treatment of *Dr. W. Evans*, 100 Chatham st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twitching of the tendons, with a general *spasmodic* affection of the muscles, difficulty of breathing, giddiness, langour, lassitude, great depression of spirits, with a fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciation, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily sweated by her friends, which may be authenticated by the physicians who were in attendance. She has given her cheerful permission to publish the above facts, and will also gladly give any information respecting the benefit she has received, to any inquiring mind.

MARY DILLON.

☞ DYSPEPSIA AND HYPOCHONDRIACISM.—*Interesting Case.*—Mr. William Salmon, Green street, above Third, Philadelphia, afflicted for several years with the following distressing symptoms: Sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes cold and pallid recentations, coldness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of pressure and weight at the stomach after eating, nightmare, great mental despondency, severe aching pains in the chest, back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, langour and lassitude upon the least exercise.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health; however as his affliction had reduced him to a very deplorable condition, and having been recommended by a relative of his to make trial of Dr. Wm. Evans' medicine, he with difficulty repaired to the office and procured a package, to which he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of health.

Persons desirous of further information, will be satisfied in every particular as to this astonishing cure, at Dr. Wm. Evans' Medical Office, 100 Chatham st. N. Y.

☞ *A severe case of Piles cured at 100 Chatham street.*—Mr Daniel Spanning, of Shrewsbury, New Town, New Jersey, was severely afflicted with Piles for more than 20 years. Had had recourse to medicines of almost every description, also the advice of several eminent physicians, but never found the slightest relief from any source whatsoever, until he called on Dr. Evans, of 100 Chatham street, N. Y. and procured *some medicine* from him, from which he found immediate relief, and subsequently a perfect cure.

☞ *An Extraordinary Cure* performed by Dr. Wm. Evans, of 100 Eldridge street, was labouring under a disease, which was by many physicians considered incurable, and could find no *relief from any source* whatever, until he made application to Dr Evans, and placed himself under his successful course of treatment, from which he began to find immediate relief, and in a few weeks was perfectly cured.

☞ *REMARKABLE CASE OF ACUTE RHEUMATISM*, with an affection of the Lungs—cured under the treatment of Dr. Wm. Evans, 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 13 Centre street, Newark, N. From the American Daily Advertiser.

Mr. Poulson.—I had lately the pleasure of examining a very old and curious Folio Bible, printed throughout in the Latin tongue, and with the black and illuminated letters; it is bound in board, and covered with parchment, highly ornamented, and inscribed on the back the words Biblia Sacra. It abounds with numerous wood engravings, representing scriptural events, and some of them are tolerably well executed. This Bible was printed by a citizen of Nuremburg, at Leiden, in the year 1518, and is now nearly three hundred and twenty one years old, and in a fine state of preservation.

It appears from some writing on the title page, that it was at one time in possession of the Monastery of the Blessed Virgin at Ebruch, Upper Germany

I doubt very much if an older Bible than this exists in this city.

GRANDIOR SENIOR.

VALUABLE COMPANY OF EMIGRANTS.

On the 19th ult. two hundred and fifty German emigrants from Dresden, Saxony, arrived at St. Louis, in a New Orleans steamer, thirty of whom are cabin passengers, and people of wealth. They are puritan Lutherans, styling themselves Stephenites, from the name of the clergyman, Mr. Stephen, who accompanies them. They intend to purchase land, and settle in Missouri, and expect soon to be joined by 600 more of their own persuasion from the "fader land."

Two accidents, singularly similar, occurred on board the steamboat John Jay, on the 27th ult. on her passage down the Arkansas river. About 9 o'clock in the morning, a gentleman named Samuel Adams, who resided near Nashville, Tenn., fell on the fly wheel, and was so badly injured that he died in eleven hours; and about one o'clock, Dr. Robert Prestbridge, of Grand Gulf, Mi. met a similar fate. The latter died instantly.

ABOLITION IN DELAWARE.

The following report has been made to the Delaware Legislature, by a Committee to whom was referred a memorial.

"The Committee to whom was referred the petition of 319 "*women of the city of Wilmington and county of New Castle,*" praying for the "*abolition of Slavery throughout this State,*" beg leave to report:

"That they consider the petitioning of "*women,*" to our National and State Legislatures (which they regret to see is becoming so general a practice) as derogatory from that refinement and delicacy which should, under all circumstances, accompany the female character, and as an unwarranted interference in subjects that should more porperly belong to their fathers, husbands, or brothers.

"Your committee are also decidedly of the opinion that the petitioners whose names are affixed to the memorial under consideration, would confer more real benefit upon society, if they hereafter confined their attention to matters of a *domestic nature*, and would be more solicitous to *mend* the *garments* of their husbands and children, than to patch the *breaches* of the laws and Constitution."

THE EARTHQUAKE IN THE WEST INDIES.

Letters from Martinique, dated Jan. 15th, say that the earthquake which has already been announced as having occurred on the night of the 11th, with such frightful effects, was repeated on the nights of the 12th and 13th, and greatly increased the damage. The whole Island was injured more or less, and Port Royal more especially. In that city eighty houses were thrown down, including the Government House, Hospital, Treasury, Churches, and all other large edifices.

Not a house escaped injury more or less.—Six hundred persons were killed. And the rest, who were able, had fled to the low grounds. In Guadaloupe and St. Lucas, great damage had been done. Two schooners had arrived at Martinique from Guadaloupe laden with wounded persons seeking for hospitals; but the inhabitants were compelled to turn them away, as they had more than their hands full of their own wounded.

EARTHQUAKE AT MARTINQUE.

The French ship Carolina, arrived at Charleston from Point Petre, brings the following additional intelligence in relation to the dreadful earthquake at Martinique:

ST. PIERRE, MARTINIQUE, Jan. 11.

I hasten to inform you of the terrible disaster that took place this morning about three quarters after five o'clock; a distressing earthquake, such as has not been known of before in this colony, has visited us. All the houses of our city have more or less suffered. Some have been completed overturned, and the greatest number of those that have sustained injury will require much repair, if it is not absolutely necessary to pull them down. But few persons have been victims in this place, four only, but unfortunately this is not the case at Fort Royal.

We learn that that city has suffered dreadfully, a great number of houses, all those built of stone have fallen, carrying with them their unfortunate tenants. The hospital (a new building) has been much injured, and a part of the sick fell victims within its walls. The number of deaths after all reports collected to this time is estimated at about five hundred—our city is to day in the most profound consternation.

ST. PIERRE, MARTINIQUE, Jan. 12.

You have undoubtedly heard of the dreadful calamity which has befallen our unfortunate country, already so much to be pitied in every respect. There is not a single house in St. Perre, that must not be rebuilt or entirely repaired.

We have lost but two persons, who were crushed under the ruins, and about twenty were wounded; but Fort Royal is completely laid even with the ground, as we hear of in the history of Herculaneum, Pompeii and Messina. Not one-fourth of the city has yet been searched, and they have already found 522 dead bodies. The Hospital of Fort Royal is likewise destroyed, and all the sick therein perished.

According to other letters and reports of different persons arrived at Point Petre, from Martinique, on the 13th and 14th inst., it would appear that all the wooden houses have escaped the disaster. Nothing yet can be said of the state of the fortifications at Fort Royal, and of the other establishments of the Government, of which no mention is made in the letters of our correspondents. But from the reports collected from the adjacent country, we would infer that the sugar factories had suffered considerably already, the known losses are estimated at more than ten millions of francs. On the 12th a vessel arrived at St. Pierre from St. Lucy, by which we heard that that Island had felt but slightly the shock of the Earthquake.

A FAREWELL DISCOURSE.

The Rev. Dr. Osgood, of Springfield, Massachusetts, delivered a discourse to his congregation, on completing the thirtieth year of his ministry there. He has followed to the tomb, one thousand of his people, baptized seven or eight hundred, and united over two hundred couples in marriage.

FOREIGN.

ARRIVAL OF THE GREAT WESTERN, VERY LATE FROM ENGLAND.

The steam ship Great Western arrived at New York on Saturday at 8. P. M., in 18 days from Bristol, which port she left on the 28th Jan. at 5. P M. To the attention of GEORGE PEABODY, Esq. of London, and a gentleman of this city, the editors of the American are indebted for London and Bristol papers to the 26th January, both inclusive. The Western has 103 passengers, a list of which will be found below.

The Grain market was dull, and a small decline in prices.

The cotton market firm. For the week ending the 19th January the sales at Liverpool were 18,230 bales, 5,500 American, on speculation. For the week ending the 26th the sales were large—33,370, including 16 500 American, on speculation. The market close very brisk and previous prices fully sustained.

Movements were making in various parts of England in favour of the repeal of the Corn Laws.

Lord John Russell has announced his readiness to defend in Parliament the principle of a *moderate* fixed duty on the importation of Corn.

Lord Durham, Lord Brougham, Mr Paulette Thompson and others have announced their opposition to the Corn Laws, in letters read at a dinner of the Manchester Anti-Corn Law Association

The Anti-Corn Law Association of Manchester have raised upwards of 45001. to carry forward their proceedings.

RESIGNATION OF THE FRENCH MINISTRY.

The whole of the French Ministers on the 22d January placed their resignations in the hands of the King, in consequence of finding their majority in the Chamber of Deputies insufficient. On the following day His Majesty confided to Marshal Soult the construction of a new Ministry.

The *Moniteur* publishes a Royal ordinance dated 22d January, promoting Real Admiral Charles Baudin to the rank of Vice-Admiral, as a recompense for his gallant and skilful conduct at the capture of the fortress of San Juan d'. Ullon.

EXPORTATION OF GRAIN PROHIBITED FROM FRANCE.

The Paris Moniteur contains a royal ordinance prohibiting the exportation of grain from an of the Western ports of France.

The *Courier Francais* condemns the above ordinance, which prohibits the export of grain from the Atlantic harbours of France, as vicious in its principle, subversive of every sound idea of political economy, and violating the freedom of the corn trade, but that the Government, on the other hand, had obeyed the most imperious of Laws—that of necessity, and praises it for making that concession to fears, however unjustifiable and absurd those apprehensions might have been, "rather than be obliged to have recourse to new and sanguinary measures of repression, like those enforced against the revolters of la Rochelle."

The *Commerce* has an article of a similar nature, condemning the measure as an impolitic submission to the influence of fear.

The French papers announce new riots in different parts of that Kingdom to prevent the exportation of corn, but show that those disturbances were immediately suppressed.

The Bordeaux papers state, that some disturbances occurred on the 16th Jan. in the small town of Casteljaloux. Five or six hundred individuals assembled tumultuously, and proceeded to the municipality to obtain a reduction in the price of bread. The authorities, being left without a sufficient military force, were compelled to acquiesce in the demand of the multitude.

A fire which had recently occurred in Constantinople was, if the Augsburg Gazette speaks truly, connected with a conspiracy against the Sultan's life. It was reported that the Turkish Government was on the point of contracting a loan for £400,000 with the house of Rothschild, which would be securred on the island of Chio.

LOSS OF THE PROTECTOR EAST IN. DIAMAN AND 170 LIVES.

Accounts from India announce the loss of this ship, bound from London to Calcutta, at Sands Head, near the place of her destination. Out of 178 persons on board, only eight were saved, viz: 7 recruits and one seaman. The number of recruits on board was 116, accompanied by 16 women and 10 children; crew 36. The Protector was driven ashore in a gale, while at anchor.

On the day after the recent severe gale in England, the tide rose so high at Hamburg as to be four feet deep in the Exchange.

BELGIUM AND HOLLAND.

The King of Belgium, it is said, will refuse to sign the articles for the arrangement of the differences between Belgium and Holland, and serious fears were entertained that hostilities would ensue. A large armed force had been marched to the frontier by the French government.

OBITUARY.

Died, on Wednesday, the 13th instant, at Brewsley Hall, his late residence, in this county, JOHN CRAYTON, in the 58th year of his age.

The mourning widow and children of the deceased have many causes of consolation under this afflicting bereavement. Their deceased

...husband; and before death was pierced through his active and useful life, as to secure to himself the respect and esteem of his acquaintance, the friendship of his neighbours, and the love of his relations. Many are the grateful witnesses of his kindness and generosity—and none less he left behind him, of all who knew him, who do not mingle their regrets at his death with the tears of the afflicted. Although his decease was violent, and his departure unexpected, yet do not the bereaved mourn as without hope, for his last days afforded consolatory evidence that he died the death of the righteous.

NOTICE.

Some time during, or directly after, the late war with Great Britain, *John D.* or *Wm D. Turner*, then a lad, was brought from Norfolk, Va. by a Gentleman, to this place. If said Turner is yet living, he will hear of something much to his interest, by calling on the Editor.

ON LOW SPIRITS.

Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are, flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

Causes. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses,) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principal objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to in many cases it greatly aggravates the symptoms.

A REAL BLESSING TO MOTHERS.

Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c.

THE BARON VON HUTCHELER HERB PILLS.

These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse or strength to the arterial system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed; the blood is purified, and the body resumes a healthful state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines, and are so well adapted to the table state, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, *that old age when it arrives will appear a blessing, and not* (as too many who have dissipated their constitutions, or had them injured by medicines administered by ignorance) *a source of misery and abhorrence.*

They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expel the bad, acrid or morbid matter, which renders the blood impure, out of the circulation, thro' the excretory ducts into the passage of the bowels, so that by the bulk, or slight evacuations, which may be regulated by the dose of the **Herb Pills**, always remembering that while the evacuations from the bowels are kept up, the excretions from all the other vessels of the body will also be going on in the same proportion, by which means the blood is variably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the most acute or obstinate diseases; but in such cases the dose may be augmented, according to the inveteracy of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at all times

In all cases of Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Fluor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Flatulency, Heartburn, General Debility, Bodily Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Palpitations, Hysterics, Headache, Blloops, Sea Sickness, Night-Mare, Gout, Rheumatism, Asthma, Tic Douloureux, Cramp, Spasmodic Affections, and those who are victims to that most excruciating disorder, *Gout*, will find relief from their sufferings, by a course of the Herb Pills.

Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Bowels, Dizziness or Confusion of Sight, Noises in the Head, Alternate Flushings of Heat and Chillness, Tremors, Wanderings, Agitation, Anxiety, Bad Dreams, Sadness, will in every case be relieved by an occasional dose of the Herb Pills.

One of the most dangerous specific to hasten on the change of life and it is then they require a medicine which will so invigorate their constitution, and thus strengthen their constitutions as may enable them to withstand the shock. This medicine is the Baron Von Hutcheler Herb Pills.

Those who have the care and education of females, whether the students or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination.

When the Nervous System has been too largely drawn upon or overstrained, nothing is better to correct and invigorate the drooping constitution than these Pills.

DIRECTIONS.

Baron Von Hutcheler Herb Pills are to be taken in the morning and night, when the Stomach is foul or the Bowels costive, sufficient to operate twice or three times. The dose may be from three to twelve, or more, night and morning.

General Depot for the sale of the Baron Von Hutcheler Herb Pills, 100 Chatham st. New York.

The following are among many cures performed by the superior efficacy of Baron Von Hutcheler Herb Pills:

Liver Complaint, five years standing.

Mrs. Phebe Morris, of North South street, Williamsburg, afflicted for the last five years with Liver Complaint, was completely restored to health by the use of *Baron Von Hutcheler Herb Pills*. Symptoms: habitual costiveness, total loss of appetite, constant pain in the right side, great depression of spirits; could not lie in bed only on the right side, disturbed sleep, dimness of sight, urine high coloured, pain under the right shoulder blade, languor, lassitude, with other symptoms indicating a diseased state of the Liver.

She was attended by three of the most eminent physicians, but found only temporary relief, until she procured some of *Baron Von Hutcheler Herb Pills*, which effectually relieved her of all the above distressing symptoms, and says she is perfectly cured.

Dyspepsia, five years standing.

Mr. John Sutherland, of 608 Water street, had been severely afflicted with dyspepsia for five years, with the following distressing symptoms: sickness at the stomach, headache, dizziness, faintness, palpitation of the heart, great distress at the pit of the stomach after eating, great fullness, acrid eructations, coldness and weakness of the extremities, emaciation, heartburn, disturbed rest, frightful dreams, flying pains in the chest, side, and back, costiveness, dislike for society or conversation, great lassitude upon the least exercise, and completely unable to attend to any business. Had applied to many eminent physicians, but could find no relief, and despaired of ever being cured. Was advised by a friend to make use of *Baron Von Hutcheler Herb Pill*, the first dose of which gave him great relief, and by persevering in taking the pills, according to the directions, for six months, was perfectly restored to health and the enjoyment of his family and friends.

Dyspepsia, eight years standing, cured by the use of the celebrated Baron Von Hutcheler Herb Pills.

Captain J. Davis, of the ship William, was labouring under the following symptoms, viz: violent pain in the stomach after eating, great pain in the head, vomiting up all his food, heartburn, dizziness, violent palpitation of the heart, great nervous irritability, spasms, great langour, costiveness, and so debilitated as to be unable to attend to any business; could find no relief until after he commenced using Baron Von Hutcheler Herb Pills, from which he found great relief in a few days, and in a few weeks was perfectly cured and recommends every person similarly afflicted, to immediately, commence using the Herb Pills.

SIXTH VOLUME OF

THE CULTIVATOR,

CONDUCTED BY J. BUEL,

of Albany.

IN presenting our subscription for the sixth volume of the Cultivator, the Conductor avails himself of the opportunity of tendering his thanks to the gentlemen, whose voluntary exertions have given to this paper a circulation almost unprecedented in our country—and particularly to the numerous correspondents whose communications have enriched its columns. We respectfully invite the continued co-operation of both classes, as an efficient mode of promoting useful improvement, and advancing the prosperity of our country. The plan and price of the Cultivator will remain as they are; but as the publication can only be sustained by a large circulation and prompt payments, much will depend upon the voluntary aid which we expect, and upon the subscriptions being promptly paid in advance.

The *Cultivator* will continue to treat of the science of agriculture, to furnish instructions for the best models of practice in all the departments of husbandry, in horticulture, and other rural affairs, and to give useful lessons for the improvement of the young mind. The Conductor will endeavour to render it a *present help*, and a volume of *useful reference*, to all who have the ambition to distinguish themselves in rural labours and rural improvements—to help themselves and to benefit society

To meet the public demands, we have published a new edition of our four first volumes, which may be had, stitched, at 50 cents per vol.

JOURNAL

OF THE

AMERICAN SILK SOCIETY

AND

RURAL ECONOMIST.

AT a Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion of this Convention that *Silk* may be grown in all the United States, not only for domestic purposes, but as a valuable article of commercial export—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution, J. S. SKINNER, postmaster, of Baltimore, was invited to become the editor of the work, and has consented to do so—so far as may be consistent with the strict performance of his public duties.

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the *silk culture*, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, 'Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export.' The suitableness of our soil and climate to the growth and health of the worm, and the trees which supply its food; the capabilities, the habits, and the genius of our people for conducting the business through its whole process, and the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our unrestrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has imparted *to us, as to our English ancestry*, an omnivorous appetite for knowledge, and a capacity to learn in a few years what cannot be acquired in *ages*, where all is dull conformity and routine of thought and of action! Thus has it happened in manufactures as in other things; American ingenuity, unrestrained by prejudice or law, has triumphed over difficulties apparently insurmountable! How long, may it be asked, after our first cotton spindle was put in motion before Yankee 'Lowells' were sold at a profit *in China*? So will it be with *silk*. The only question is as to *how long it shall take us*? With a monthly journal to concentrate and diffuse every ray of floating light on the subject, it was the opinion of the Convention that we may realize and enjoy, in our *own day*, the boon which indolence and want of concert may procrastinate, but which nothing short of Turkish apathy can finally defeat.

Let all then who may feel any concern as cultivators, manufacturers, or venders of *silk*, or as patriots willing to offer suitable occupation and bread to the unemployed and the helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national independence.

Though SILK, and every thing connected with its production; and all improvements in machinery for its preparation and manufacture, will constitute the *chief design and aim* of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of *agriculture, horticulture*, and *rural* and *domestic economy*.—Hence, the adjunctive title 'Rural Economist.'

The Journal of the American Silk Society will be published monthly, in pamphlet form, each number will contain thirty-two pages, printed on new type and handsome paper, with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

SUPPLEMENT TO THE GLOBE.

PROSPECTUS FOR THE

CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The *Congressional Globe* is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The *Appendix* contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, $1.

One copy of the Appendix, $1.

Six copies of either of the above works will be sent for $5, twelve copies for $10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, *postage paid*, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

☞ *No attention will be paid to any order, unless the money accompany it, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.*

OF THE
AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

IT is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and [illegible]y, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology; but these do not meet the *present* necessity. A periodical which is avowedly *phrenological*—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is *now* needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "*The American Phrenological Journal and Miscellany.*"

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on *Education*, (physical, intellectual, and moral;) on the *Medical Treatment of the Insane;* on *Jurisprudence;* on *Theology*, and on *Mental and Moral Philosophy*. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be *decidedly evangelical:* for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology.* And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. *Such* correspondents we shall always welcome to our pages, and they will always be treated with kindness: as, also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt; and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished us. But as we must form our own judgment of the cerebral [illegible] opinions, it is obvious that we cannot receive, in these instances, the opinions of [illegible] phrenological or anti-phrenological writers, as to the degree in which the several organs are developed—we *must*, in every such case, see *the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal: its plan, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our PLOTS we pledge ourselves shall be *bona fide* such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for *accepted matter*, as liberal a compensation per *printed page* is usually afforded by the very best periodicals in our country, but the [illegible] promise, to *endorse* all which his correspondents may communicate, nor all which he may admit into the work. In cases in which principles, and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of *reply* or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say that the pecuniary value of each number will depend much on the [illegible] which the work is patronised. It is not with the desire or expectation of gain that it is offered to the community, but from moral considerations; and a desire to [illegible] truth. Hence should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

TERMS.

1. *The American Phrenological Journal and Miscellany* will be issued monthly, commencing on the 2d of October next.

2. Each number will contain *at least* 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day.

3. A NEW AND CHEAP PERIODICAL.

Attention is solicited from our readers to the following prospectus of a new, and even a cheaper book periodical, which will be issued from this office in the first week of next January. It will not be in so convenient a form for binding as the present, with which it will in no way interfere, but it will make *books cheap beyond all precedent*. It will contain the works of the day, which are much sought after, but are *comparatively* dear, and which cannot penetrate the interior in any mode half so rapidly as by mail, in which *volumes* of books are prohibited. A fifty cent American reprint will be furnished entire for from *four* to *six cents*. Marryat novel for twelve cents, and others in proportion.

As but very few copies will be printed but what are actually subscribed for, those who wish the Omnibus, must make their remittances at once.

Books at Newspaper Postage.

WALDIE'S LITERARY OMNIBUS.
NOVEL AND IMPORTANT LITERARY ENTERPRISE!!

NOVELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY

IT was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the secluded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than *four cents a week*, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, and a summary of the news and events of the day. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves.

The Select Circulating Library, now as ever so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, in the first week of January 1837, issue a huge sheet of the size of the largest new-papers of America, but on very superior paper, also *filled with books* of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as usually *should* fill a weekly newspaper. By this method we hope to accomplish a great good; to enliven and enlighten the family circle, and to give to it, at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no further go." *No book which appears in Waldie's Quarto Library will be published in the Omnibus*, which will be an *entirely distinct* periodical.

TERMS

WALDIE'S LITERARY OMNIBUS will be issued every *Friday* morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain,

1st. Books, the newest and the best that can be procured, equal every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., *and only chargeable with newspaper postage.*

2d. Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d. The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded *to one address*. To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance.

As the arrangements for the prosecution of this great library undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Ree's Cyclopedia, for the small sum mentioned above.

Address, post paid,

ADAM WALDIE,
46 Carpenter St. Philadelphia.

☞ Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

NOTICE IS HEREBY GIVEN,

SUPPLEMENT TO THE GLOBE.
PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. The time, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The *Congressional Globe* is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The *Appendix* contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, $1.

One copy of the Appendix, $1.

Six copies of either of the above works will be sent for $5, twelve copies for $10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, *postage paid*, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

☞ *No attention will be paid to any order, unless the money accompany it*, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

CERTIFICATES.

☞ *MORE CONCLUSIVE PROOFS* of the extraordinary efficacy of *Dr. WM. EVANS'* celebrated *CAMOMILE* and *APERIENT ANTI-BILIOUS PILLS*, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery, or Bloody Flux. Symptoms, unusual flatulency in the bowels, severe griping, frequent inclination to go to stool, tenesmus, loss of appetite, nausea, vomiting, frequency of pulse, and a frequent discharge of a peculiarly fœtid matter, mixed with blood, great debility, sense of burning heat, with an intolerable bearing down of the parts. Mr. Cameron is enjoying perfect health, and returned his sincere thanks for the extraordinary benefit he had received.

☞ ASTHMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, afflicted with the above distressing malady. Symptoms: Great languor, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, costiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of *every person interested in his existence or happiness*, till by accident he noticed in a public paper some cures effected by *Dr. Wm. Evans' Medicine* in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

☞ LIVER COMPLAINT, TEN YEARS' STANDING.—*Mrs. Hannah Browne*, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of *Dr. Wm. Evans*. Symptoms: Habitual constipation of the bowels, total loss of appetite, excruciating pain of the epigastric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr. Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt. Joseph Johnson, of Lynn, Mass. was severely afflicted for ten years with Tic Doloreux, violent pain in her head, and vomiting, with a burning heat in the stomach, and unable to leave her room. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chatham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's Store, 389 Grand st. N. Y.

☞ PARALYTIC RHEUMATISM.—A perfect cure effected by the treatment of *Dr. W. Evans*. Mr. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three years and nine months; during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all times from the external heat, an obvious thickening of the fascia and ligaments, with a complete loss of muscular power.—For the benefit of those afflicted in a similar manner, Mr Gibson conceives it meet to say that the pains have entirely ceased, and that his joints have completely recovered their natural tone, and he feels able to resume his ordinary business.

☞ Mrs. Anne F. Kenny, No. 115 Lewis street, between Stanton and Houston sts., afflicted for ten years with the following distressing symptoms: Acid eructations, daily spasmodic pains in the head, loss of appetite, palpitation of her heart, giddiness and dimness of sight, could not lie on her right side, disturbed rest, utter inability of engaging in any thing that demanded vigour or courage, sometimes a visionary idea of an aggravation of her disease, a whimsical aversion to particular persons and places, groundless apprehensions of personal danger and poverty, an irksomeness and weariness of life, discontented, disquietude on every slight occasion, she conceived she could neither die nor live; she wept, lamented, desponded, and thought she led a most miserable life, never was any one so bad, with frequent mental hallucinations.

Mr. Kenny had the advice of several eminent physicians, and had recourse to numerous medicines, but could not obtain even temporary alleviation of her distressing state, till her husband persuaded her to make trial of my mode of treatment.

She is now quite relieved, and finds herself not only capable of attending to her domestic affairs, but avows that she enjoys as good health at present as she did at any period of her existence.

J. Kenny, husband of the aforesaid Anne Kenny.

Peter Pinckney, Com. of Deeds.

☞ A Letter from Mr. Sheldon P. Gilbert, to Dr. Wm. Evans, proprietor of the celebrated Camomile Pills:

Dear Sir.—Had the immortal Cowper known the medical qualities of the Camomile Plant, he as well as thousands since (besides myself,) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, thro' the natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Camomile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.

The above lines were prompted from the effect I have experienced from Dr. Wm. Evans' Camomile Pills.

Yours, with esteem,

Sheldon P. Gilbert.

Durham, Green Co., N. Y.

☞ *Another recent test of the unrivalled virtue of Dr. Wm. Evans' Medicines.—DYSPEPSIA. TEN YEARS' STANDING.*—Mr. J. McKenzie, 176 Stanton street, was afflicted with the above complaint for 10 years, which incapacitated him at intervals, for the period of six years, in attending to his business, restored to perfect health under the salutary treatment of Dr. Wm. Evans.

The symptoms were—A sense of distension and oppression after eating, distressing pain in the pit of the stomach, nausea, impaired appetite, giddiness, palpitation of the heart, great debility and emaciation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extreme degree of langour and faintness; any endeavour to pursue his business causing immediate exhaustion and weariness.

Mr. McKenzie is daily attending his business, and none of the above symptoms have recurred since he used the medicine. He is now a strong and healthy man. He resorted to myriads of remedies, but they were all ineffectual. He is willing to give any information to the afflicted respecting the inestimable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

☞ *An Extraordinary and Remarkable Cure.—Mrs. Mary Dillon*, Williamsburgh, corner of Fourth and North streets, completely restored to health by the treatment of Dr. W. Evans, 100 Chatham st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twitching of the tendons, with a general spasmodic affection of the muscles, difficulty of breathing, giddiness, langour, lassitude, great depression of spirits, with a fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciation, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily awaited by her friends, which may be authenticated by the physicians who were in attendance. She has given her cheerful permission to publish the above facts, and will also gladly give any information respecting the benefit she has received, to any inquiring mind.

MARY DILLON.

☞ DYSPEPSIA AND HYPOCHONDRIACISM.—*Interesting Case.*—Mr. William Salmon, Green street, above Third, Philadelphia, afflicted for several years with the following distressing symptoms: Sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrescent eructations, coldness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of pressure and weight at the stomach after eating, nightmare, great mental despondency, severe flying pains in the chest, back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, languor and lassitude upon the least exercise.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health; however as his affliction had reduced him to a very deplorable condition, and having been recommended by a relative of his to make trial of Dr. Wm. Evans' medicine, he with difficulty repaired to the office and procured a package, to which, he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of health.

Persons desirous of further information, will be satisfied in every particular as to this astonishing cure, at Dr. Wm. Evans' Medical Office, 100 Chatham st. N. Y.

☞ *A severe case of Piles cured at* 100 *Chatham street.*—Mr Daniel Spanning, of Shrewsbury, Eden Town, New Jersey, was severely afflicted with Piles for more than 20 years. Had had recourse to medicines of almost every description, also the advice of several eminent physicians, but never found the slightest relief from any source whatsoever, until he called on Dr. Evans, of 100 Chatham street, N. Y. and procured some medicine from him, from which he found immediate relief, and subsequently a perfect cure.

☞ *An Extraordinary Cure* performed by Dr. Wm. Evans, of 100 Chatham st. N. Y.—Mr. W. W. W. of 160 Eldridge street, was labouring under a disease, which was by many physicians considered incurable, and could find no relief from any source whatever, until he made application to Dr. Evans, and placed himself under his successful course of treatment, from which he began to find immediate relief, and in a few weeks was perfectly cured.

☞ *REMARKABLE CASE OF ACUTE RHEUMATISM*, with an affection of the Lungs—cured under the treatment of Dr. Wm. Evans, 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 13 Centre street, Newark, N. J. afflicted for four years with severe pains in all his joints, which were always increased on the slightest motion; the tongue preserved a steady whiteness; loss of appetite, dissiness in his head, the bowels commonly very costive, the urine high coloured, and often profuse sweating, unattended by relief. The above symptoms were also attended with considerable difficulty of breathing, with a sense of tightness across the chest, likewise a great want of due energy in the nervous system.

The above symptoms were entirely removed, and a perfect cure effected by Dr. Wm. Evans.

PROSPECTUS
OF THE
AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

IT is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, been astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which ensue, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists have their science to have on medicine, and on [illegible] and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology; but these do not meet the *present* necessity. A periodical which is avowedly *phrenological*—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is *now* needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "*The American Phrenological Journal and Miscellany.*"

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on *Education*, (physical, intellectual, and moral;) on the *Medical Treatment of the Insane*; on *Jurisprudence*; on *Theology*, and on *Mental and Moral Philosophy*. On all these subjects there is encouragement to hope for contributions from several able pens, while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be *decidedly evangelical:* for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology.* And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of caviliers, but of the truly candid, and the conscientiously fearful. *Such* correspondents we shall always welcome to our pages, and they will always be treated with kindness; as also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt, and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But, as we must form our own judgment of the correspondent in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenological or anti-phrenological writers, as to the degree in which the several organs are developed—we must, in every such case, see *the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our pages we pledge ourselves shall be open, *pro bono*, and as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that, scarcely a number will be issued, without two or more such cuts.

To encourage Phrenologists of talent (and especially [illegible] phrenologists,) to send us their contributions, we offer *accepted matter*, as liberal a compensation *per printed page* as is usually afforded by the new [illegible] periodicals in the country, [illegible] promise to withdraw all which his correspondents may communicate, nor all which he may insert into the work, [illegible] if we [illegible], and especially if it affect the interests of morality and religion, to claim the right of correction, in the form of [illegible] or the suppression of the objectionable matter; and communications for which compensation is expected, must be [illegible] for the [illegible].

In conclusion, we may be allowed to say that the pecuniary success of such a work will depend much [illegible] which the work is patronized. [illegible]

TERMS.

1. *The American Phrenological Journal and Miscellany* will be issued monthly, commencing on the 2d of October next.

2. Each number will contain *at least* 32 octavo pages, making a volume of not less than 384 pages, corresponding in point of mechanical execution with the best periodicals of the day.

3. The work will be furnished to subscribers at $2 per annum for a single copy; $5 (current in Philadelphia or New York) for THREE copies, or $10 (current as above) for SEVEN copies sent to one address. N. B. As funds are already deposited for sustaining the work *one year*, subscribers will incur no risk of loss by paying in advance; and for the same reason, subscriptions will be *invariably* required IN ADVANCE.

Subscriptions, and letters of business, may be addressed to the publisher, ADAM WALDIE, 46 Carpenter-street, Philadelphia, and communications for the work to the EDITOR of the Am. Phren. Jour., care of A. WALDIE.

To editors who will give this Prospectus one or two insertions, and forward a paper containing it to the publisher, the work will be sent for one year.

☞ Postmasters throughout the country will please to act as agents for this Journal.

WALDIE'S LITERARY OMNIBUS.

NOVEL AND IMPORTANT LITERARY ENTERPRISE!!

NOVELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY.

IT was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the secluded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than *four cents a week*, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, and a sub-mary of the news and events of the day. We know by experience and calculation that we can go at it further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves.

The Select Circulating Library, now as a matter so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, in the first week of January 1839, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also *filled with books* of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as usually *should* fill a weekly newspaper. By this method we hope to accomplish a great good; to enliven and enlighten the family circle, and to give to it, at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no further go." *No book which appears in Waldie's Quarto Library will be published in the Omnibus*, which will be an *entirely distinct* periodical.

TERMS

WALDIE'S LITERARY OMNIBUS will be issued every *Friday* morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain,

1st. Books, the newest and the best that can be procured, equal every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., *and only chargeable with newspaper postage.*

2d. Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d. The news of the week concentrated in a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded *to one address.* To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on unsurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance.

As the arrangements for the prosecution of this great library undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will sustain in a year reading matter equal in amount to two volumes of Rees's Cyclopedia, for the small sum mentioned above.

Address, post paid,

ADAM WALDIE,
46 Carpenter St. Philadelphia.

☞ Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

NOTICE IS HEREBY GIVEN, THAT the subscriber has obtained from the Orphans Court of Anne Arundel county, short letters testamentary on the personal estate of Henry Gable, late of said county, deceased. All persons having claims against said estate are requested to present them, legally authenticated, and those indebted are desired to make immediate payment.

ELIZABETH GABLE, Ex'x.

CERTIFICATES.

☞ *MORE CONCLUSIVE PROOFS* of the extraordinary efficacy of *Dr. WM. EVANS'* celebrated *CAMOMILE* and *APERIENT ANTI-BILIOUS PILLS*, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery. Disease, Chronic Dysentery, or Bloody Flux. Symptoms, unusual flatulency in the bowels, severe griping, frequent inclination to go to stool, tenesmus, loss of appetite, nausea, vomiting, frequency of pulse, and a frequent discharge of a peculiarly fœtid matter, mixed with blood, great debility, sense of burning heat, with an intolerable bearing down of the parts. Mr. Cameron is enjoying perfect health, and returned his sincere thanks for the extraordinary benefit he had received.

☞ ASTHMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, afflicted with the above distressing malady. Symptoms: Great languor, flatulency, disturbed rest, nervous headache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and restlessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, costiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by *Dr. Wm. Evans' Medicine* in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

☞ LIVER COMPLAINT, TEN YEARS' STANDING.—*Mrs. Hannah Browne*, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of *Dr. Wm. Evans*. Symptoms: Habitual constipation of the bowels, total loss of appetite, excruciating pain of the epigastric region, great depression of spirits, languor and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr. Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt. Joseph Johnson, of Lynn, Mass. was severely afflicted for ten years with Tic Doloreux, violent pain in her head, and vomiting, with a burning heat in the stomach; and unable to leave her room. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chatham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. References can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's store, 360 Grand st. N. Y.

☞ PARALYTIC RHEUMATISM.—A perfect cure effected by the treatment of *Dr. W. E. Wms.* Mr. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three years and nine months; during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all times from the external joint, an obvious thickening of the fascia and ligaments with a complete loss of muscular power.—For the benefit of those afflicted in a similar manner, Mr Gibson conceives it most to say that the pains have entirely ceased, and that his joints have completely recovered their natural tone, and he feels able to resume his ordinary business.

☞ Mrs. Anne F. Kenny, No. 116 Lewis street, between Stanton and Houston sts., afflicted for ten years with the distressing distressing symptoms: Acid eructations, daily vomitings going for one hour, loss of appetite, palpitation of her heart, giddiness and dimness of sight, pupil lost, pain in her right side, distorted rest, utter inability of engaging in any thing that demanded vigour or courage, sometimes a visionary idea of an aggravation of her disease, a whimsical aversion to particular persons and places, groundless apprehensions of personal danger and poverty, an irksomeness and weariness of life, discontented, disquietude on every slight occasion, she conceived she could neither die nor live; she wept, lamented, desponded, and thought she led a most miserable life, never was any one so bad, with frequent mental hallucinations.

Mr. Kenny had the advice of several eminent physicians, and had recourse to numerous medicines, but could not obtain even temporary alleviation of her distressing state, till her husband persuaded her to make trial of my mode of treatment.

She is now quite relieved, and finds herself not only capable of attending to her domestic affairs, but avows that she enjoys as good health at present as she did at any period of her existence.

J. Kenny, husband of the aforesaid Anne Kenny.

☞ A Letter from Mr. Sheldon P. Gilbert, to Dr. Wm. Evans, proprietor of the celebrated Camomile Pills:

Dear Sir—Had the immortal Cowper known the medical qualities of the Camomile Plant, he as well as thousands since (besides myself,) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, thro' the natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Camomile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.

The above lines were prompted from the effect I have experienced from Dr. Wm. Evans' Camomile Pills.

Yours, with esteem,
Sheldon P. Gilbert.

Durham, Green Co., N. Y.

☞ *Another recent test of the marvellous virtue of Dr. Wm. Evans' Medicines.—DYSPEPSIA. TEN YEARS' STANDING.*—Mr. J. McKenzie, 176 Stanton street, was afflicted with the above complaint for 10 years, which incapacitated him at intervals, for the period of *six years, in attending to his business*, restored to perfect health under the salutary treatment of Dr. Wm. Evans.

The symptoms were—A sense of distension and oppression after eating, distressing pain in the pit of the stomach, nausea, impaired appetite, giddiness, palpitation of the heart, great debility and emaciation, depression of spirits, disturbed rest, sometimes a bilious vomiting, and pain in the right side, an extreme degree of langour and faintness; any endeavour to pursue his business causing immediate exhaustion and weariness

Mr. McKenzie is daily attending his business, and none of the above symptoms have recurred since he used the medicine. He is now a strong and healthy man. He resorted to myriads of remedies, but they were all ineffectual. He is willing to give any information to the afflicted respecting the inestimable benefit rendered to him by the use of Dr. Wm. Evans' medicine.

☞ *An Extraordinary and Remarkable Cure.—Mrs. Mary Dillon*, Williamsburgh, corner of Fourth and North streets, completely restored to health by the treatment of Dr W. Evans, 100 Chatham st.

The symptoms of this distressing case were as follows: Total loss of appetite, palpitation of the heart, twitching of the tendons, with a general spasmodic affection of the muscles, difficulty of breathing, giddiness, langour, lassitude, great depression of spirits, with a fear of some impending evil, a sensation of fluttering at the pit of the stomach, irregular transient pains in different parts, great emaciation, with other symptoms of extreme debility.

The above case was pronounced hopeless by three of the most eminent physicians, and the dissolution of the patient daily awaited by her friends, which may be authenticated by the physicians who were in attendance. She has given her cheerful permission to publish the above facts, and will also gladly give any information respecting the benefit she has received, to any inquiring mind.

MARY DILLON.

☞ DYSPEPSIA AND HYPOCHONDRIACISM.—*Interesting Case.*—Mr. William Salmon, Green street, above Third, Philadelphia, afflicted for several years with the following distressing symptoms. Sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrescent eructations, coldness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of pressure and weight at the stomach after eating, nightmare, great mental despondency, severe flying pains in the chest, back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, languor and lassitude upon the least exercise.

Mr. Salmon had applied to the most eminent physicians, who considered it beyond the power of medicine to restore him to health; however as his affliction had reduced him to a very deplorable condition, and having been recommended by a relative of his to make trial of Dr. Wm. Evans' medicine, he with difficulty repaired to the office and procured a package, to which, he says, he is indebted for his restoration to life, health and friends. He is now enjoying all the blessings of health.

Persons desirous of further information, will be satisfied in every particular as to this astonishing cure, at Dr. Wm. Evans' Medical Office, 100 Chatham st. N. Y.

☞ *A severe case of Piles cured at 100 Chatham street.*—Mr Daniel Spanning, of Shrewsbury, Eden Town, *New Jersey*, was severely afflicted with Piles for more than 20 years. Had had recourse to medicines of almost every description, also the advice of several eminent physicians, but never found the slight est relief from any source whatsoever, until he called on Dr. Evans, of 100 Chatham street, N. Y. and procured some medicine from him, from which he found immediate relief, and subsequently a perfect cure.

☞ *An Extraordinary Cure* performed by Dr. Wm. Evans, of 100 Chatham st. N. Y.—Mr. W. W. W. of 160 Eldridge street, was labouring under a disease, which was by many physicians considered incurable, and could find no relief from any source whatever, until he made application to Dr. Evans, and placed himself under his successful course of treatment, from which he began to find immediate relief, and in a few weeks was perfectly cured.

☞ *REMARKABLE CASE OF ACUTE RHEUMATISM*, with an affection of the Lungs—cured under the treatment of Dr. Wm. Evans, 100 Chatham street, New York. Mr. Benjamin S. Jarvis, 19 Centre street, Newark, N. J. afflicted for four years with severe pains in all his joints, which were always increased on the slightest motion; the tongue preserved a steady whiteness; loss of appetite, dizziness in his head, the bowels commonly very costive, the urine high coloured, and often profuse sweating, unattended by relief. The above symptoms were also attended with considerable difficulty of breathing, with a sense of tightness across the chest, likewise a great want of due energy in the nervous system.

The above symptoms were entirely removed, and a perfect cure effected by Dr. Wm. Evans.

Benjamin S. Jarvis being duly sworn, doth depose and say, that the facts stated in the above certificate, subscribed by him, are in all respects true.

A NEW AND BEAUTIFUL FULL LENGTH

PORTRAIT OF WASHINGTON,

A COPY FROM STUART'S CELEBRATED PAINTING IN FANEUIL HALL, BOSTON; AND THE

Declaration of Independence,

A Copy from Trumbull's well known Painting in Washington.

A Gentleman interested in the above Prints, is now in this City, to solicit the patronage of the Citizens and Members of the Legislature. It is hoped he may receive from them that encouragement, which the superior excellence of the Engravings merit. He will remain in this place until Saturday Until that day they may be seen at the State Library, and at Mr. Hughes' Store. ☞ They will be packed for transportation, any distance, if desired.

NOTICES.

PORTRAIT OF WASHINGTON.—The Likness is, we think, admirable. The style in which it is executed, is far superior to any similar production of our own Artists, and fully equal to the best English Engravings. Every man who desires to see the Arts flourish in this country should purchase this beautiful Print; in so doing he will get his money's worth, and at the same time will lend encouragement to a deserving Association of Native Artists —*N. Y. Mirror.*

NEW ENGRAVING OF WASHINGTON AND THE DECLARATION.—These emblems of National Pride have just been presented to the public in a new and very beautiful dress, by an ASSOCIATION OF NATIVE ARTISTS, who deserve universal patronage. The Portrait of Washington is very far superior to any thing of the kind we have ever before seen, either the production of our own, or of foreign artists.

THEATRE.

Since this establishment has been opened we have paid it several visits, and are truly gratified to say, that we have come away pleased and instructed. Several new and interesting pieces have been performed, all of which we were pleased with, the parts generally well sustained, particularly the "Forest of Bondy," in which the part of Macaire, by Mr. Raffile, can scarce be equalled, certainly not excelled. We were particularly struck with Mr. Raffile's acting when the second act of William Tell was attempted to be played, (who, notwithstanding the character of Gesler, by Mr. Osgood, was wofully deficient, not knowing his part,) still Mr. Raffile, as Wm. Tell, managed to get the piece through by his more than ordinary talent; but we must excuse Mr. Osgood, as we are assured multifarious duties devolving upon him prevented him from giving that study which he should have done. We heartily wish the Manager success, and we have no doubt with a few such characters as Mr. Raffile he will have abundant success. We should always encourage native talent—we have now that opportunity afforded us in Mr. Raffile, who, when his Benefit shall take place, we hope the citizens of Annapolis will not forget. We cordially recommend him, as a young man of promising genius, and very much of a gentleman in society.

CAROLINE COUNTY.

MEETING OF THE PEOPLE.

Pursuant to public notice a large number of the Republican voters of Caroline County, met at Denton on Tuesday, February the 12th, 1839, to take into consideration the unjustifiable course pursued by the present Senator from this county.

The meeting was organized by appointing JAMES SANGSTON, Esq. President, and Capt. James Rich and Nathan Todd, Vice Presidents, and Wm. Baily and John O. Morgan, Secretaries.

The object of the meeting having been stated by the president, it was on motion, ordered, that the Chair appoint a Committee of five to prepare an address to the People of the county, and Resolutions expressive of the opinions of the meeting. In obedience thereto, the Chair appointed the following gentlemen—M Fountain, James Saulsbury, Peter Johnson, John Stevens, and Jno. A. Sangston; who retired and reported to the meeting the subjoined Address and Resolutions, which were read and adopted.

TO THE CITIZENS OF CAROLINE COUNTY.

Having been appointed by a meeting of the Van Buren voters of this county to address you upon the conduct of your Senator, Mr. Boon, we present the following review of facts to your consideration:

In reviewing the course of policy which Mr. Boon has carried out in the Senate of Maryland, we witness with astonishment and surprise, the violated faith and honour of this gentleman to his constituents—a circumstance we believe unparalleled in the history of this or any other State. We have always believed and understood that the fundamental principle of all Representative governments, is based upon the principles of Democracy. The representative to carry out in all acts of Legislation the will of his constituents, whether expressed or implied. When he departs from this rule or principle he at once ceases to be a Representative in fact, but assumes to himself the power of a dictator: the servant becomes the master, the creature, the creator. We cannot view Mr. Boon's course in any others light; having departed from his solemn pledges to his constituents previous to his election, not one of which has he redeemed, he stands in the unenviable position of a betrayer of the confidence reposed in him by the people. The question might here be asked, what are those pledges? We answer, first—Mr. Boon in announcing himself a candidate holds the following language to the voters of this county, which induced us to place his name at the head of our ticket for the Senate of Maryland.

TO THE INDEPENDENT VOTERS OF CAROLINE COUNTY.

At the solicitation of a respectable number of my fellow citizens, I have consented to become a candidate for a seat in the Senate of Maryland. In thus presenting myself before the people, it perhaps would seem more consistent that some fair ground should be assumed so that I may stand justified before the people—My former political course is well known to those with whom I have associated in other days; and it only now becomes necessary that a few words should be said in relation to my course, if elected. The subject of reform in the constitution has been a subject that I have advocated, and in the repeal of the odious Qualification Laws no man went farther than I did; and so far as the state reform has progressed it has entirely met my approbation, and should it be the policy of Maryland to carry this subject any further, I trust that I shall be found acting with the great body of the people, always recognising the will of the majority. As respects my opinion of the policy pursued by the State in her works of internal improvements they are well known to those with whom I have conversed, at all times freely on this subject; it is therefore not necessary to say more on this subject. One word more; as our State Government is divided into three distinct departments and as the appointing power is by and with the advice of the Senate, I trust that my fellow citizens will always find me, heartily co-operating with the Government for the public good. In conclusion fellow citizens, if elected, be assured that whatever talents I may have shall be used in promoting the best interests of the State.

Your obedient servant,

JOHN BOON.

Sep. 11th, 1838.

Here we have the gentleman's own language and we now say to the people of Maryland, and to the world, judge him by his acts, and see how far his acts are in accordance with his pledges *to his constituents.* Behold the man, who has sacrificed himself and his constituents so far as he can, upon the altar of his unholy ambition, *and for what?* for a mere mess of pottage, to secure the petty office of a committee clerkship in the Senate of Maryland, to his son-in-law, which there was no more use for than the third wheel to a cart, and here we are forcibly reminded of a question once asked by the King of France of one of his ministry; what is the difference between a *whig* and a *tory*, the minister replied: That torys were whigs when they wanted office, & whigs were torys when they had obtained them which we think may be applied to our Senator with all its force and truth. Thus we behold the Treasury of Maryland made subservient to his purposes.

Now to Mr. Boon's second address.

"My becoming a candidate, is, as before stated, at the request of a number of Freemen; and if elected in that body, as now organized, I shall feel myself bound on no question coming from the constitutional head, be it what it may, if the nominee's character is fair for

honesty, integrity and capability. I cannot believe there can be danger from the success of either of the great leaders now before the people of Maryland, for I have known them many years, and have been associated with the nominee on the whig ticket, in the *House of Delegates.*"

We again call upon the people of Maryland, to judge the gentleman by his acts, his unjustifiable conduct rendering comment almost useless. After favouring the Reform effected by the firm and determined stand of the Nineteen electors in 1838, and expressing his determination to carry that reform even farther if desired; his running last fall upon the ticket with Mr. Keene, one of those very electors, and his support of that ticket, are strange contrasts with his opposition to the appointment of several gentlemen recently nominated to office by the Governor, and by the Senate through his instrumentality. Does Mr. Boon suppose his constituents so blind as not to see and remember these things. If so, he pays their intelligence and foresight but a poor compliment, and adds insult to injustice.

But no sooner did the party elevate him to an honourable station, than he basely betrayed their confidence. People of Maryland, what think you of such a man?

We appeal to every high minded and honourable man of all parties, and ask them what they think of a politician who can act as Mr. Boon has done. We had hoped that he would have closed the remaining years of his life with some credit and honour to himself and to his native county. But we are mistaken.

We will further state that a short time before the election Mr. Boon was given to understand that he had not entirely satisfied some of the leading gentlemen of the party which was about to support him for the Senate, relative to the course he intended to pursue, if elected.—Mr. Boon, fellow citizens, waited on them, *and did pledge himself most positively* in case he was elected, that *he would go for and carry out the leading measures of the party*, and vote for a Democratic United States Senator, or if you please, a Van Buren United States Senator. These facts, fellow citizens, can be sustained before a Court of Justice, if necessary. Could more be asked, or any greater assurances asswere every way calculated to win our confidence? Confiding in his integrity we supported him, for which support he has repaid us by a total abandonment of every promise which he made us. Mr. Boon deceives himself if he supposes his conduct meets the approbation of any member of the Democratic party, to which party he is solely indebted for his election. Has he so soon forgotten the efforts that were made to secure him a zealous support upon the faith of his pledges, and the defence that was made for him by the Democratic party, when he was violently assailed by the rancour and jealously of a vindictive opposition in every section of the county. Was he not told to his face that he was "politically damned" with the Whig party—that he need never expect any thing from them; but strange to tell, he has thrown himself into their arms for protection, and they in turn are eulogising and urging him on in his most unjustifiable course. Cannot Mr. Boon see through the shallow artifice of the Whigs? Does he not know it is the sure and safe altar upon which to sacrifice him? When he has forfeited the confidence of those who elected him, the Whig party know that they have nothing to fear from Mr. Boon hereafter.

It is said by the Whigs—those very men who were so hostile to Mr. Boon last fall—that the Democratic party could not have elected any other man but Mr. Boon. Strange argument this—when it is notoriously known that Messrs. Keene and Hardcastle each received a greater number of votes than Mr. Boone, Mr. Keene too being one of the Nineteen Senatorial Electors in 1836, and against whom the Whigs have raised such a clamour. Mr. Keene received the greatest number of votes of any of the candidates on either of the tickets.

True, Mr. Boon received eleven independent votes in the Upper District, over Mr. Hardcastle, our delegate. Add those eleven votes to Mr. Burchenal, and still Mr. Boon would have had a majority of two votes over his whig opponent. Still these whigs are contending that Mr. Boon owes his election to them. Away with such assertions. We will once more quote his language in his first address: "I trust that I shall be found acting with the great body of the people, always recognising the will of the majority." Has Mr. Boon been so weak and blind as not to perceive and understand to which party the majority belong? for it is so plain that a fool need not err therein. Was not the Governor's election a fair test of the popular vote of the State, and was not Governor Grason's majority over Steele 311 votes? Did Mr. B. or any other man in the State want a better test? Was not Mr. B. elected by the same party? and did he not PLEDGE to act with the party and conform to the will of a majority of the people? His desertion is both moral and political treason against his constituents and the people of the State. We now leave Mr. Boon to his God and injured country, to judge him and his acts.

WHEREAS, we view with regret the necessity that has called us together upon the present occasion; and whereas, we deem it one of the highest privileges belonging to a free people to investigate and examine the course pursued by their representatives; and whereas, we look upon the course pursued by the Senator from this county, as one of the most extraordinary cases to be found in the political history of any country—Be it therefore,

Resolved, That John Boon, our present Senator, has in every respect betrayed his trust and misrepresented the known will of his constituents, and contrary to all human expectation has lent himself for party purposes, in violation of all his public and private pledges, and in direct violation of every obligation, public and private, which should bind all honourable men.

1. Resolved, That we view with the highest feeling of indignation and regret, the discredit brought upon the citizens of Caroline by the unrighteous and undignified course pursued by Senator Boon, by joining a certain faction for the plain and indisputable purpose of benefiting certain individuals, thereby taxing the Government with an additional office and unnecessary expense.

2. Resolved, That the reasons given by Mr. Boon, Senator of Caroline county, for voting against S. Sutton, of Harford county, as Fish Inspector, as entered on the Executive Journal, January 31, 1839, does not satisfy his constituents; the reason given does not apply to Mr. Sutton, but to Mr. Wason, of Washington county, who was not in nomination.

3. Resolved, That being one of the 19 is not a *disqualification to office*, neither could Mr. Boon so have considered it last fall, or he would not have voted for R. T. Keene, one of the 19, for a seat in the Legislature of the State.

4. Resolved, That the character of Messrs. Sutton, Palmer and Thomas, stands perfectly pure for honesty, integrity and capability, and that Senator Boon's course in the Senate is in direct conflict with his public pledges.

5. Be it further Resolved, That we are not mistaken in the course that we have taken towards Senator Boon, and that it will meet the approbation of the freemen of this county.

6. Be it therefore Resolved, in behalf of the citizens of Caroline county, That Senator Boon *resign his seat in the Senate of Maryland before the close of the present session, and thereby* transfer back into the hands of the people, that trust which he has so wilfully betrayed.

7. Resolved, That the President of this meeting be requested to address a copy of these proceedings to Mr. Boon, and a copy to some one of the Van Buren Senators, and that he be requested to have the same read at the President's desk

8. Resolved, That when this meeting adjourn it adjourn to meet on Thursday in next Court term, in case Mr. Boon should not consent to conform to the wishes of the party that elected him, by resigning his seat in the Senate.

9. Resolved, That the thanks of this meeting be tendered to its officers.

10. Resolved, That these proceedings, be signed by the officers of this meeting, and be published in all the papers of the state friendly to the course we have pursued.

ON LOW SPIRITS.

Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are, flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance, or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, despending, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

Causes. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses,) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principal objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in many cases it greatly aggravates the symptoms.

A REAL BLESSING TO MOTHERS.

Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums; thereby preventing Convulsions, Fevers, &c.

THE BARON VON HUTCHELER HERB PILLS.

These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse or strength to the arterial system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthful state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, *that old age when it arrives, will appear a blessing, and not* (as too many who have neglected their constitutions, or had them injured by medicines administered by ignorance) *a source of misery and abhorrence.*"

They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expel the bad, acrid or morbid matter, which renders the blood impure, out of the circulation, thro' the excretory ducts into the passage of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the **Herb Pills**, always remembering that while the evacuations from the bowels are kept up, the excretions from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly affect a cure even in the most acute or obstinate diseases; but in such cases the dose may be augmented, according to the inveteracy of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at all times

In all cases of Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Floor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Flatulency, Heartburn, General Debility, Bodily Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Faintings, Hysterics, Headache, Hiccup, Sea Sickness, Night Mare, Gout, Rheumatism, Asthma, Tic Douloureux, Cramp, Spasmodic Affections, and those who are victims to that most excruciating disorder, *Gout*, will find relief from their sufferings, by a course of the Herb Pills

Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dimness or Confusion of Sight, Noises in the inside, alternate Flushings of Heat and Chillness, Tremors, Watchings, Agitation, Anxiety, Bad Dreams, Spasms, will in every case be relieved by an occasional dose of the Herb Pills.

One of the most dangerous epochs to females is at the change of life; and in which they require a medicine which will so invigorate their circulations, and thus strengthen their constitutions as may enable them to withstand the shock. This medicine is the Baron Von Hutcheler Herb Pills.

Those who have the care and education of females, whether the studious or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination.

When the Nervous System has been too largely drawn upon or overstrained, nothing is better to correct and invigorate the *drooping constitution* than these Pills.

DIRECTIONS.

Baron Von Hutcheler Herb Pills are to be taken in the morning and night, when the Stomach is foul or the Bowels costive, sufficient to operate twice or three times The dose may be from three to twelve, or more, night and morning.

General Depot for the sale of the Baron Von Hutcheler Herb Pills, 100 Chatham st. New York.

The following are among many cures performed by the superior efficacy of Baron Von Hutcheler Herb Pills:

Liver Complaint, five years standing.

Mrs. Phebe Morris, of North Sixth street, Williamsburg, afflicted for the last five years with Liver Complaint, was completely restored to health by the use of *Baron Von Hutcheler Herb Pills.* Symptoms habitual costiveness, total loss of appetite, constant pain in the right side, great depression of spirits; could not lie in bed only on the right side, disturbed sleep, dimness of sight, urine high coloured, pain under the right shoulder blade, languor, lassitude, with other symptoms indicating a diseased state of the Liver.

Dyspepsia, five years standing.

Mr. John Butterland, of 608 Water street, had been severely afflicted with dyspepsia for five years with the following distressing symptoms: sickness at the stomach, headache, dizziness, faintness, palpitation of the heart, great distress at the pit of the stomach after eating, great fullness, acrid eructations, coldness and weakness of the extremities, emaciation, heartburn, disturbed rest, frightful dreams, flying pains in the chest, side, and back, costiveness, dislike for society or conversation, great lassitude upon the least exercise, and completely unable to attend to any business Had applied to many eminent physicians, but could find no relief, and despaired of ever being cured Was advised by a friend to make use of *Baron Von Hutcheler Herb Pill*, the first dose of which gave him great relief, and by persevering in taking the pills according to the directions, for six months, was perfectly restored to health and the enjoyment of his family and friends.

Dyspepsia, eight years standing, cured by the use of the celebrated Baron Von Hutcheler Herb Pills.

Captain J. Davis, of the ship William, was labouring under the following symptoms, viz: violent pain in the stomach after eating, great pain in the head, vomiting up all his food, heartburn, dizziness, violent palpitation of the heart, great nervous irritability, spasms, great langour, costiveness, and so debilitated as to be unable to attend to any business; could find no relief until after he commenced using Baron Von Hutcheler Herb Pills, from which he found great relief in a few days, and in a few weeks was perfectly cured, and recommends every person similarly afflicted, to immediately commence using the Herb Pills.

Cure of Nervous and Bilious Affection.

TAKE NOTICE.—Mr. Elias Shafer, of the town of Westerlo, county of Albany, was for above 27 years troubled with a nervous and bilious affection, which for 7 years rendered him unable to attend to business, and during the last three years of his illness was confined to the house. His symptoms were dizziness, pain in the head and side, palpitation of the heart, want of appetite, &c. After expending during his confinement, nearly three hundred dollars, without obtaining any permanent relief, he by accident noticed an advertisement of Baron Von Hutcheler Herb Pills, and was consequently induced to make a trial of them. After using them about a fortnight, he was able to walk out; in four months he could attend to business, and considered his disease entirely removed. The above information was given to the subscriber by Mr Shafer himself there can, therefore, be no deception.

SUBSCRIPTION

TO THE

SIXTH VOLUME OF

THE CULTIVATOR,

CONDUCTED BY J. BUEL,

of Albany.

IN presenting our subscription for the sixth volume of the Cultivator, the Conductor avails himself of the opportunity of tendering his thanks to the gentlemen, whose voluntary exertions have given to this paper a circulation almost unprecedented in our country—and particularly to the numerous correspondents whose communications have enriched its columns. We respectfully invite the continued co-operation of both classes, as an efficient mode of promoting useful improvement, and advancing the prosperity of our country The plan and price of the Cultivator will remain as they are; but as the publication can only be sustained by a large circulation and prompt payments, much will depend upon the voluntary aid which we expect, and upon the subscriptions being promptly paid in advance.

The *Cultivator* will continue to treat of the science of agriculture, to furnish instructions for the best models of practice in all the departments of husbandry, in horticulture, and other rural affairs, and to give useful lessons for the improvement of the young mind. The Conductor will endeavour to render it a *present help*, and a volume of *useful reference*, to all who have the ambition to distinguish themselves in rural labours and rural improvements—to help themselves and to benefit society

To meet the public demands, we have published a new edition of our four first volumes, which may be had, stitched, at 50 cents per vol.

☞ All papers stopped at the end of the volume, in February, unless the subscription is renewed.

JOURNAL

OF THE

AMERICAN SILK SOCIETY

AND

RURAL ECONOMIST.

AT a Convention which met at Baltimore on the 5th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion of this Convention that *Silk* may be grown in all the United States, not only for domestic purposes, but as a valuable article of *commercial export*—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper, ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution, J. S. SKINNER, postmaster, of Baltimore, was invited to become the editor of the work, and has consented to do so—so far as may be consistent with the strict performance of his public duties.

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the *silk culture*, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, "Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export." The suitableness of our soil and climate to the growth and health of the worm, and the trees which supply its food; the capabilities, the habits, and the genius of our people for conducting the business through its whole process, and the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our unrestrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has impaired to us, as to our English ancestry, an omnivorous appetite for knowledge, and a capacity to learn in a few years what cannot be acquired in *ages*, where all is dull conformity and routine of thought and of action! Thus has it happened in manufactures as in other things; American ingenuity, unrestrained by prejudice or law, has triumphed over difficulties apparently insurmountable! How long, may it be asked, after our first cotton spinning was put in motion before Yankee 'Lowells' were sold at a profit *in China*? So will it be with *silk*. The only question is as to *how long it shall take us?* With a monthly journal to concentrate and diffuse every ray of floating light on the subject, it was the opinion of the Convention that we may realize and enjoy, in our *own day*, the boon which indolence and want of concert may prove fortunate, but which nothing short of Turkish apathy can finally defeat.

Let all then who may feel any concern as cultivators, manufacturers, or venders of silk, or as patriots willing to offer suitable occupation and bread to the unemployed and the helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national independence.

Though SILK, and every thing connected with its production; and all improvements in machinery for its preparation and manufacture, will constitute the *chief desiderata* of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly related and kindred subjects of *agriculture, horticulture*, and *rural* and *domestic economy*. Hence, the adjunctive title *'Rural Economist'*

The Journal of the American Silk Society will be published monthly, in pamphlet form; each number will contain thirty-two pages, printed on new type and handsome paper, with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

PROSPECTUS
OF THE
AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

IT is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology: but these do not meet the *present* necessity. A periodical which is avowedly *phrenological*—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is *now* needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "*The American Phrenological Journal and Miscellany.*"

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on *Education*, (physical, intellectual, and moral;) on the *Medical Treatment of the Insane*; on *Jurisprudence*; on *Theology*, and on *Mental and Moral Philosophy*. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be *decidedly evangelical*: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—A frequent subject of discussion in our pages will therefore be, *The Harmony between the truths of Revelation and those of Phrenology*. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. *Such* correspondents we shall always welcome to our pages, and they will always be treated with kindness; as, also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt; and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral developement in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenological or anti-phrenological writers, as to the degree in which the several organs are developed—we *must*, in every such case, see *the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our FACTS we pledge ourselves shall be *bona-fide* such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for *accepted matter*, as liberal a compensation per *printed page*, as is usually afforded by the very first periodicals in our country; but the editor does not promise to *endorse* all which his correspondents may communicate; nor all which he may admit into the work. To error, if serious, and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications, for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the desire or expectation of gain that it is offered to the community, but from moral considerations: from a desire to know and to promulgate *truth*. Hence should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

TERMS.

1. *The American Phrenological Journal and Miscellany* will be issued monthly, commencing on the 2d of October next.

2. Each number will contain *at least* 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day.

3. The work will be furnished to subscribers at $2 per annum for a single copy; $5 (current in Philadelphia or New York) for THREE copies, or $10 (current as above) for SEVEN copies sent to one address. To *Clergymen* and *Theological Students*, single copies will be furnished at $1 50 per annum; and to companies of eight or more of such, it will be reduced to $1 25 per copy, if sent to one address, and the subscription forwarded to the publisher free of expense.

N. B. As funds are already deposited for sustaining the work *one year*, subscribers will incur no risk of loss by paying in advance; and for the same reason, subscriptions will be *invariably* required IN ADVANCE.

Money sent by mail, if enclosed in the presence of the post master, will be at the risk of the publisher; but *postage must, in every case, be paid*.

Subscriptions, and letters of business, may be addressed to the publisher, ADAM WALDIE, 46 Carpenter-street, Philadelphia, and communications for the work to the EDITOR of the Am. Phren. Jour., care of A. WALDIE.

To editors who will give this Prospectus one or two insertions, and forward a paper containing it to the publisher, the work will be sent for one year.

☞ Postmasters throughout the country will please to act as agents for this Journal.

A NEW AND CHEAP PERIODICAL.

Attention is requested from our readers to the following prospectus of a new, and even a cheaper book periodical, which will be issued from this office in the first week of next January. It will not be in so convenient a form for binding as the present, with which it will in no way interfere, but it will make *books cheap beyond all precedent*. It will contain the works of the day, which are much sought after, but are *comparatively* dear, and which cannot penetrate the interior in any mode half so rapidly as by mail, in which *volumes* of books are prohibited. A fifty cent American reprint will be furnished entire for from *four* to *six cents*; a Marryat novel for twelve cents, and others in proportion.

As but very few copies will be printed but what are actually subscribed for, those who wish the Omnibus, must make their remittances at once.

Books at Newspaper Postage.

WALDIE'S LITERARY OMNIBUS.

NOVEL AND IMPORTANT LITERARY ENTERPRISE!!

NOVELS, TALES, BIOGRAPHY, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY

IT was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the secluded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than *four cents a week*, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, and a summary of the news and events of the day. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves.

The Select Circulating Library, now as ever so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also *filled with books* of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such as usually *should* fill a weekly newspaper. By this method we hope to accomplish a great good; to enliven and enlighten the family circle, and to give to it, at an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no farther go." *No book which appears in Waldie's Quarto Library will be published in the Omnibus*, which will be an *entirely distinct* periodical.

TERMS

WALDIE'S LITERARY OMNIBUS will be issued every Friday morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain,

1st. Books, the newest and the best that can be procured, equal every week to a London duodecimo volume, embracing Novels, Travels, Memoirs, &c., *and only chargeable with newspaper postage.*

2d. Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

3d. The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded *to one address*. To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance.

As the arrangements for the prosecution of this great literary undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Rees's Cyclopedia, for the small sum mentioned above.

Address, post paid,

ADAM WALDIE,
46 Carpenter St. Philadelphia.

☞ Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.

NOTICE IS HEREBY GIVEN,

SUPPLEMENT TO THE GLOBE.

PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. There are now more subscribers for them, probably, than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to charge them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The *Congressional Globe* is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The yeas and nays on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The *Appendix* contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS:

For one copy of the Congressional Globe, $1.

One copy of the Appendix, $1.

Six copies of either of the above works will be sent for $5, twelve copies for $10, and a proportionate number for a larger sum.

Payments may be transmitted by mail, *postage paid*, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

☞ *No attention will be paid to any order, unless the money accompany it*, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.
